

MEDICINE GRAND ROUNDS

MyCarePortal: ENHANCING PATIENT ACCESS AND INVOLVEMENT IN CARE

March 31, 2023 12:00-1:00 pm

Location: Auditorium A at UH, Sumner Auditorium at VH, or Zoom

Presented by: Nerissa Taylor

Nerissa is the Manager for the Virtual Care Program at London Health Sciences Centre and St. Joseph's Health Care London. She has over 8 years of clinical experience as a Speech-Language Pathologist both at Victoria and University Hospital working with stroke, medicine, trauma and orthopaedic adult patient populations. Nerissa has a passion for utilizing digital health technology to improve the patient and clinician experience.

MyCarePortal is a Cerner-based patient portal that allows patients to view their health information and interact securely with their health care team. Join us for a discussion on the planning and implementation of a patient portal within LHSC.

Objectives

- 1. Enhance understanding of the value of patient portals.**
- 2. Develop an understanding of the process leveraged to support the design and planning of MyCarePortal.**
- 3. Discuss clinical considerations related to MyCarePortal.**

Please forward any questions you may have to mycareportal@lhsc.on.ca so in order to best prepare for the presentation.
