

# SHORT-TERM EMPLOYMENT OPPORTUNITY

<b>Supervisor:</b>	Piotr Wilk, PhD
<b>Supervisor's Affiliations:</b>	Associate Professor, Grad Chair, Department of Epidemiology and Biostatistics
<b>Research Categories:</b>	Behavioural/environmental risk factors, Social determinants of health
<b>Vacancies:</b>	1
<b>Compensation:</b>	To be discussed
<b>Position Title:</b>	Part-Time Research Assistant
<b>Position Description:</b>	<b>Responsibilities</b>

Dr. Piotr Wilk is leading a program of research aimed at assessing the direct and indirect effects of long-term exposure to environmental risk factors on chronic conditions, hospitalizations, and emergency department visits in urban areas across Canada. The Research Assistant will apply their expertise and knowledge to this ongoing research program, under the direction of the Principal Investigator. The incumbent will conduct literature reviews, maintain reference management software, and prepare academic papers for peer-reviewed journals. Applicants should have experience conducting systematic literature reviews and have familiarity with population health, behavioural/environmental risk factors, and/or social determinants of health.

## Qualifications

### Education:

- Master's degree or equivalent required with a focus in population health or behavioural/environmental risk factors, or relevant related area of study

### Experience:

- Minimum one year of work experience conducting research in the area of population health, behavioural/environmental risk factors, and/or social determinants of health
- Experience conducting literature reviews and using reference management software (i.e., Endnote)

- Experience writing academic papers and preparing papers for peer-reviewed journals

**Knowledge, Skills, and Abilities:**

- Detail-oriented with an ability to function and process information with high levels of accuracy
- Ability to work independently and make decisions using good judgement, initiative, tact, and a professional attitude in the workplace
- Adaptable, flexible, and resourceful, with the ability to multi-task and meet deadlines
- Demonstrated skill and ability in quantitative and qualitative research
- Knowledge of publication processes with demonstrated expertise in leading or contributing to peer-review publications with superior writing skills

**To Apply:** Send resume and a sample of academic writing to Piotr Wilk, at [pwilk3@uwo.ca](mailto:pwilk3@uwo.ca).
