CURRENT RESEARCH OPPORTUNITY FOR MSC APPLICANTS

Posting Identification #: 201909015

Graduate Program: Epidemiology and Biostatistics with a Collaborative Specialization in Biostatistics

Research Cluster(s): Biostatistics; Randomized Clinical Trials

Supervisor(s): Stephanie Dixon and Neil Klar

Supervisor’s Affiliations: Department of Epidemiology and Biostatistics, Western University
London Health Sciences Centre
Lawson Health Research Institute
ICES – Kidney, Dialysis and Transplantation Program
Department of Mathematics and Statistics, University of Guelph

Vacancies: Up to 2

Term: 2 Years

Description: Seeking a biostatistics student to conduct methodological research in the area of Cluster Randomization Trials, Randomized Registry Trials, and methods that are relevant to the study of patients with Kidney disease. Supervisor has grant funding for incoming students but all will be expected to apply for their own funding should they be accepted for these positions.

To Apply: Applicants must independently apply to the Epidemiology and Biostatistics MSc graduate program, using the online Western application portal including a clear reference to this research project, using the posting identification number, in the Statement of Academic Interest.

Application Deadline: January 15

Contact Information: Questions regarding the application process, or inquiries about the Epidemiology and Biostatistics program may be addressed to the Academic Programs Coordinator.

Questions about this posting may be addressed to stephanie.dixon@ices.on.ca.
