CURRENT RESEARCH OPPORTUNITY FOR PHD APPLICANTS

Posting Identification #: 201909014
Graduate Program: Epidemiology and Biostatistics with a Collaborative Specialization in Biostatistics
Research Cluster(s): Biostatistics
Supervisor(s): Dr GY Zou
Supervisor's Affiliations: Biostatistics
Vacancies: 1
Term: 4 Years
Description: We are seeking a PhD student to develop novel statistical methods for cluster randomization trials. The student will use analytical and simulation techniques as well as real-life data-sets to conduct such research. Funding for salary support is available.

To Apply: Applicants must independently apply to the Epidemiology and Biostatistics graduate program using the online Western application portal, including a clear reference to this research project, using the posting identification number, in the Statement of Academic Interest.

Application Deadline: January 15

Contact Information: Questions regarding the application process, or inquiries about the Epidemiology and Biostatistics program may be addressed to the Academic Programs Coordinator.

Questions about this posting may be addressed to gy.zou@robartsinc.com.
