

<b>Name of Rotation:</b>	Emergency Medicine - Woodstock
<b>Description of Rotation:</b>	<p>The Woodstock Hospital, built in November 2011, is located approximately 30 minutes from London, just off Highway 401.</p> <p>Serving the city of Woodstock and surrounding Oxford County, the emergency department sees just over 48,000 visits per year. We see a wide variety of patients across the acuity and disease spectrums. The Woodstock Hospital is a full-service community hospital with specialty services including; ENT, internal medicine, general surgery, obstetrics, anaesthesia, orthopaedic surgery, urology and ophthalmology. We are a schedule one facility for psychiatric patients.</p> <p>Our hospital is equipped with CT, MRI, bedside ultrasound, video-laryngoscope etc. In addition to the usual emergency department duties, we are involved in patient admission, critical care transfers and provide code blue and pink services to the hospital.</p> <p>We tend to do almost all of our own fracture reductions, procedures and conscious sedations. We enjoy a good relationship with our specialists and community family doctors. During the rotation we maintain a one to one staff to student ratio, to ensure a high-quality educational experience.</p>
<b>Rotation Contact:</b>	<p>Dr. Kashif Ahmed</p> <p>Angela Miller, Admin</p>
