

<b>Name of Rotation:</b>	Student Health - Western
<b>Description of Rotation:</b>	<p>The student health clinic at the Western University offers a unique and exciting elective that promises to be fun, meaningful and helpful to reach your learning objectives.</p> <p>Our clinic provides comprehensive primary care to the diverse emerging adult population on campus with the help of our multidisciplinary Wellness and Wellbeing team. Our amazing group of physicians possess a wide range of skills from IUD insertions and excisional biopsies to formal CBT counselling.</p> <p>Residents will gain the opportunity to hone their skills with some of the most common presentations including mental health, sexual and contraceptive health, genitourinary and gyne health, endocrine, gastrointestinal, infectious diseases, respiratory, cardiac, MSK and dermatology.</p> <p>As a resident on elective you will ultimately gain the the ability to have a meaningful and positive influence on a patient's life journey during a pivotal moment in their development.</p>
<b>Rotation Contact:</b>	<p>Dr. Sonya Malone</p> <p>Dr. Nadine Cheikh</p>
<b>Sample Schedule:</b>	4-5 clinic days , with the occasional weekend half day
<b>On-Call Requirements:</b>	None. We do ask however that they be willing to come in for "exciting" cases if contacted by the pediatrician on call after hours.
<b>Description of Setting:</b>	Office, where all 6 peds work together. Hospital, including ER if called down to case, peds

	inpt floor (doing daily rounds), and newborn unit/as well as level 2 nursery (doing daily rounds)
<b>Clinical Supervision:</b>	Will be done by peds on call with you based on your level of comfort and your abilities You will likely work with all 6 pediatricians at least once
<b>Clinical Content:</b>	Luck of the draw as per inpt and ER pts. Could include new diabetic, seizures, asthma, bronchiolitis, dehydration cases, etc. In office will see ADHD, school and behaviour issues, depression/anxiety in various age groups, constipation, rashes,etc.
<b>Objectives/Expectations:</b>	To come away having seen many cases from newborn to teen, feeling comfortable working with all ages and with whole family. To understand how to deal with basic peds and newborn urgent needs.
<b>Level of Residents Accepted:</b>	PGY1,PGY2
<b>Teaching:</b>	Sometimes we have a med student with us and really appreciate when the resident helps in teaching them. We are always keen for residents to present to our group or even hospital grand rounds if time permits
