

Mandatory Online Training at
GRAND RIVER HOSPITAL AND ST. MARY'S GENERAL HOSPITAL

All students and residents participating in placements at Grand River Hospital and/or St. Mary's General Hospital are required to complete the following online training module listed below prior to their placement start date.

OR 101: Waterless Surgical Scrub Review

In the course we will discuss the importance of using a surgical scrub within the Operating Room (OR). We will review surgical scrub methods as well as describe the factors that impact the effectiveness of the surgical scrub.

Directions for using the online tutorials via Grand River Hospital website:

Please visit: <https://edge.dualcode.com/login/signup.php> to create your account (*or sign-in if you have already created one*). Click on the course title that you are required to take i.e. OR 101

- Click on the course content icon to open the course 
- Optional - expand the window using the maximize button in the upper right corner 

Upon successful completion of the module(s) your results will be logged. There is no need to provide the medical education coordinator with proof of completion.
