# **Enhanced Skills Orientation Session**

July 3, 2020 Department of Family Medicine

Daniel H. Grushka, BSc., MSc., MD, CCFP(EM), FCFP Associate Professor & Enhanced Skills Program Director

## **Program Vision**

- The current vision of the Enhanced Skills Program is to provide residents with additional training in specialized fields of family medicine for a duration of 6 to 12 months in length.
- The aim is to attract exceptional residents who want to be leaders in these sub-specialized fields of family medicine while still adhering to the guiding principles of family medicine.
- It is our hope that these residents will then attempt to encompass these new skills within the practice of family medicine
