

Enhanced Skills Orientation Session

July 8, 2022

Department of Family Medicine

**Dr. Kyle Carter MD, CCFP(EM),
Assistant Professor & Enhanced Skills Program Director**

Program Vision

- The current vision of the Enhanced Skills Program is to provide residents with additional training in specialized fields of family medicine for a duration of 6 to 12 months in length.
- The aim is to attract *exceptional residents* who want to be leaders in these sub-specialized fields of family medicine while still adhering to the guiding principles of family medicine.
- It is our hope that these residents will then attempt to encompass these new skills within the practice of family medicine
