

ILDERTON,
ONTARIO

Middlesex Centre Family Medicine Clinic

Practicing at the Middlesex Centre Family Medicine Clinic since July 2011, Dr. Darren Van Dam holds an academic appointment with Western University. His practice involves teaching resident doctors and medical students, as well as Emergency Medicine coverage. Dr. Van Dam has a strong background and interest in physical medicine, which started with his undergraduate degree in kinesiology and continued as he worked in a physiotherapy clinic for three years after graduating. When he started his medical training at Queen's university, this interest convinced him he would be an orthopaedic surgeon, however he likes to say that he 'smartened up' just in time to switch gears into family medicine. Dr. Van Dam looks forward to a long career serving the community of Middlesex Centre.

At the Schulich School of Medicine & Dentistry, you're more than just another resident. We specialize in training comprehensive family physicians and future leaders in family medicine. We do this through a highly adaptable program that includes tailor-made curriculum and educational programs for residents.
