ONTARIO

St. Joseph's Family Medical & Dental Centre

Dr. Laura Lyons is the Director of St Joseph's Family Medical Centre, a family physician and assistant professor with the Department of Family Medicine, Schulich School of Medicine & Dentistry, Western University. Her practice focus includes obstetrics, inpatient palliative care and resident training. Dr. Lyons works in the Family Medicine Obstetrics clinic at London Health Sciences Centre (LHSC) providing obstetrical care to vulnerable women. She specializes in addictions and methadone in pregnancy. Dr. Lyons' primary research includes screening for psycho-social risk factors in pregnancy, perinatal mental health service delivery and post-partum depression.

Aside from work Dr. Lyons spends her time staying active with spinning, swimming in the summer and skiing in the winter. She is a voracious reader who cherishes large family dinners on Sunday night with her three busy children, her husband John and many nieces and nephews attending Western University.

At the Schulich School of Medicine & Dentistry, you're more than just another resident. We specialize in training comprehensive family physicians and future leaders in family medicine. We do this through a highly adaptable program that includes tailor-made curriculum and educational programs for residents.
