

**Subject:** COVID Protocols Update - IMPORTANT INFORMATION FOR BOTH LONDON AND WINDSOR CAMPUS STUDENTS

**Meds 2022s, 2024s and 2025s,**

As COVID+ cases continue to rise, along with individuals that have been close contacts, we wanted to provide further clarification around isolation and return to campus requirements. Please review below the information for each campus as the guidelines have been updated and are different for each campus.

As of March 30, 2022	Windsor Campus	London Campus
	<b>Western University and the University of Windsor require that you complete the University screener daily prior to coming onto campus.</b>	
<b>I have COVID SYMPTOMS</b>	<ul style="list-style-type: none"> <li>• <b>Self- isolate for 10 days</b> and enter your absence into the HUB and email <a href="mailto:covid19reporting@uwindsor.ca">covid19reporting@uwindsor.ca</a> to <b>await return to campus instructions</b></li> <li>• You can stop self-isolating after the five days ONLY if: i) you have no fever and your symptoms have been improving for at least 24 hours; and ii) you follow all public health measures e.g. masking, physical distancing</li> <li>• Inform your close contacts that they have been likely exposed to COVID-19 and should follow the requirements for close contact.</li> </ul>	<ul style="list-style-type: none"> <li>• <b>Self- isolate for five days</b> and enter your absence into the HUB.</li> <li>• You can stop self-isolating after the five days ONLY if: i) you have no fever and your symptoms have been improving for at least 24 hours; and ii) you follow all public health measures e.g. masking, physical distancing. iii) you are fully vaccinated (3 doses).</li> <li>• Inform your close contacts that they have been likely exposed to COVID-19 and should follow the requirements for close contact.</li> </ul>
<b>I have tested Positive for COVID-19</b>	<ul style="list-style-type: none"> <li>• <b>Self- isolate for 10 days</b> and enter your absence into the HUB and email <a href="mailto:covid19reporting@uwindsor.ca">covid19reporting@uwindsor.ca</a> to <b>await return to campus instructions</b></li> <li>• You can stop self-isolating after the 10 days ONLY if: i) you have no fever and your symptoms have</li> </ul>	<ul style="list-style-type: none"> <li>• <b>Self- isolate for five days</b> after the date of your positive test and enter your absence into the HUB.</li> <li>• You can stop self-isolating after the five days ONLY if : i) you have no fever and your</li> </ul>

	<p>been improving for at least 24 hours; and ii) you follow all public health measures e.g. masking, physical distancing.</p> <ul style="list-style-type: none"> <li>• Inform your close contacts that they have been likely exposed to COVID-19 and should follow the requirements for close contact.</li> </ul>	<p>symptoms have been improving for at least 24 hours; and ii) you follow all public health measures e.g. masking, physical distancing. iii) you are fully vaccinated (3 doses).</p> <ul style="list-style-type: none"> <li>• Inform your close contacts that they have been likely exposed to COVID-19 and should follow the requirements for close contact.</li> </ul>
<p><b>I had a close contact with someone COVID positive (not in PPE) but I DO NOT have COVID Symptoms</b></p>	<ul style="list-style-type: none"> <li>• <b>Self-isolate for 5 days</b> after the date of close contact and enter your absence into the HUB and email <a href="mailto:covid19reporting@uwindsor.ca">covid19reporting@uwindsor.ca</a> to await return to campus instructions</li> <li>• <b>Self-monitor for symptoms for ten days</b> after your last exposure to the person</li> <li>• wear a mask, avoid activities where mask removal is necessary (such as dining out, high contact sports) and follow all other public health measures if leaving home</li> <li>• You CAN NOT access the hospital or clinical setting within 10 days of having a close COVID contact</li> <li>• do not visit any highest-risk settings (such as long-term care or retirement homes) or people who may be at higher risk of illness (such as seniors) for 10 days after your last exposure</li> </ul>	<ul style="list-style-type: none"> <li>• <b>Self-monitor for symptoms for ten days</b> after your last exposure to the person</li> <li>• wear a mask, avoid activities where mask removal is necessary (such as dining out, high contact sports) and follow all other public health measures if leaving home</li> <li>• You CAN NOT access the hospital or clinical setting within 10 days of having a close COVID contact</li> <li>• do not visit any highest-risk settings (such as long-term care or retirement homes) or people who may be at higher risk of illness (such as seniors) for 10 days after your last exposure</li> </ul>
