

Kit Orientation

CLASS 2030 and ASPIDG 2029 STUDENT KIT ORIENTATION

Attendance: Mandatory

Date & Time: DDS Class of 2030 - Friday, September 3, 2026 (subject to change); specifics TBD

ASP Class of 2029 – Monday, August 31 – Thursday, September 2, 2026
(subject to change); specifics TBD

Location: SIM Clinic, DSB 00020

The goal of the orientation is to ensure students receive their kits complete, and to issue lockers and scrubs. Upon entry to the school, expectations of students' knowledge of dental equipment and sundries are low. Throughout the school year students will be opening and unpacking new instruments and sundries as the curriculum dictates. During this process things can get lost or misplaced and kit orientation day is scheduled to ensure without a doubt that students have received everything they were supposed to prior to the start of the school curriculum.

Information regarding the orientation session will be provided by Kim Scott, Scheduling & Curriculum Coordinator.

All questions regarding Kit Orientation should be directed to:
