Police Record Check including Vulnerable Sector Screening

All medical students will interact with vulnerable populations through the course of their academic programs. To ensure that medical students do not place vulnerable populations at risk, the Schulich School of Medicine & Dentistry requires that students provide, as a condition of their admission into the MD Program, a current and original Police Record Check including Vulnerable Sector Screening. This process must be initiated through your local police service.

As it can take up to six weeks to complete, you should begin this process as soon as possible to ensure compliance with the deadline.

Applicants accepting an offer of admission from Schulich Medicine must submit a current and original Police Record Check including Vulnerable Sector Screening to the Schulich Medicine Admissions Office by 4:30 p.m. (ET) on July 2, 2019.

If you do not submit a current and original Police Record Check including Vulnerable Sector Screening by July 2, you will be required to submit a signed and dated Letter of Declaration to the Schulich Medicine Admissions Office by 4:30 p.m. (ET) on July 2, 2019 indicating that you have a clear record. This declaration must be followed-up by submission of the original report by 4:30 p.m. (ET) on August 1, 2019. Failure to submit a current Police Records Check including Vulnerable Sector Screening by August 1 will result in your Offer of Admission being withdrawn.

Please keep a copy of your Police Record Check including Vulnerable Sector Screening when you submit the original to Admissions, as you may be asked for it later in your School career.

Please note:

- **If your police station requires an authorization letter** for the Vulnerable Sector Screening, please contact the Admissions Office.

- **If you will be using Toronto Police Services** to obtain a record check, please contact the Admissions Office for details on this process **before** contacting the police services.

Mail, courier or bring your original document to:

Schulich School of Medicine & Dentistry, Western University
Health Sciences Addition, room H103
