

Ontario Dental Association Student Membership Guide

2024-2025

Start your career on the right track with the ODA

CDSPI is pleased to help support the ODA's Student Programs

On behalf of the Ontario Dental Association (ODA), congratulations on your excellent choice of careers. We would also like to introduce you to the Ontario Dental Association (ODA).

The ODA is the professional association for Ontario's dentists. We're there for you as you navigate each phase of your dental career. ODA members have exclusive access to a long list of solutions, services and resources designed to benefit not only your careers, but also our great profession.

In the following pages, you'll find a brief overview of some of the benefits available to student members. Your student membership fee of \$194 (plus HST) covers all years at dental school and your first year of practice in Ontario. We're happy to offer this four-year discounted rate to help you begin your relationship with your professional association. To join the ODA, please complete and submit the application form at the back of this brochure.

As you become more familiar with the ODA and the work we do, you'll notice that we believe strongly in organized dentistry. Being a member of the ODA means belonging to a larger organization — the Canadian Dental Association — and contributing to national, unified voice with which we can represent and advance the best interests of dentists, the public and the profession. It's an important concept and one to which we're committed.

Personally, I have been an ODA member for 29 years. This is my 25th year in private practice and I got involved in organized dentistry right after graduating. Talking with students, we often get asked, "Why do you do this?" My answer is simple. "We do this for you! You all are the future of this respected and trusted profession. We need to keep it that way." I am looking forward to the opportunity to meet you and your classmates at future ODA-sponsored events.

Welcome to the profession; and welcome to the ODA.
