As of July 07 2021
MEDS 2025 LIVE ZOOM ORIENTATION WEEK SCHEDULE AUG 23-27, 2021

1. All sessions in this schedule are considered mandatory and must be attended by connecting to the Zoom links to be provided in August.
2. In order to log into the Orientation Sessions you must FIRST ACTIVATE YOUR ZOOM ACCOUNT. See below this schedule for minimum system requirements & details
3. Sessions will open and be available 15 minutes prior to the start of each morning.

Please contact the UME office at undergraduate.medicine@schulich.uwo.ca if you have questions about the specifications required for either of these devices.

2. Set Up your UWO Zoom Account:

All students are required to activate and log into their Western Zoom Account to participate in ALL learning at Schulich including Orientation Week. Even if you have a personal account, it is still necessary to sign into your Western Zoom account and use this account as your default for any learning activities throughout the academic year. Doing so allows faculty and staff to pre-arrange break out rooms and use other necessary tools available to them as well as contributes to keeping each session secure.

To activate your Western Zoom Account please go to Western Technology Services - Zoom Getting started and use the detailed instructions under the “Install Zoom” tab as well as the “Activate Your Zoom Account” tab.

3. Accessing Orientation Zoom Links and Orientation Elentra Website

Elentra is the home of all your courses and materials for your learning at Schulich. Please go to the Schulich Elentra site and when prompted, log with your Western Identity username (without the @uwo.ca) and your password. (Note; the Elentra Orientation site is being updated and will be available in mid August)

Once you have logged in, select Courses on the top navigation menu and then select WELCOME – Orientation in the course listing. Inside this Orientation site, the course navigation side menu will have a page for each day of Orientation. Within each of these pages, you will find links to events occurring on that day.

If you require any assistance logging into Elentra or the Orientation site, please contact elentra.support@schulich.uwo.ca for support.
