

## POSTGRADUATE MEDICAL EDUCATION SCHULICH SCHOOL OF MEDICINE & DENTISTRY

### POLICY ON PROGRAM RESPONSIBILITIES IN CLINICAL FELLOWSHIP EDUCATION

**Approved by PGME Committee:** December 11, 2024

**Approved by JSC:** November 21, 2025

**Date of Next Scheduled Review:** 2028

#### Preamble

The purpose of this policy is to outline the required processes and procedures for the application, selection, registration, educational objectives and assessment of clinical fellows. This policy does not apply to residents, trainees in Royal College Area of Focused Competence (AFC) programs, research fellows, or trainees in a Subspecialty Examination Affiliate Program (SEAP).

Clinical fellowship training is intended to provide postgraduate medical training outside of the specialty or subspecialty training requirements of the Royal College of Physician and Surgeons of Canada (RCPSC) or the College of Family Physicians of Canada (CFPC).

Fellowship training does not lead to certification by the RCPSC or CFPC.

#### Definitions

**Resident:** Trainees enrolled in a RCPSC or CFPC accredited training program, including RCPSC subspecialties and CFPC Enhanced Skills. Residents are eligible for certification from the RCPSC or CFPC.

**Area of Focused Competence (AFC) Trainees:** Trainees who are registered in an accredited AFC Program. They must meet the eligibility requirements for the Competency Training Requirements (CTR) for the AFC in which they are registered.

**Clinical Fellow:** Fellows who are acquiring post-certification training. According to the [Medicine Act 1991](#), fellows must meet the educational requirements for certification as a specialist by the Royal College of Physicians and Surgeons of Canada (RCPSC) or the College of Family Physicians of Canada (CFPC), or a member board of the American Board of Medical Specialties, or be recognized as a medical specialist in the jurisdiction where the applicant practices medicine immediately before the appointment as a clinical fellow. Fellowship training does not lead to certification by the Royal College or CFPC. Clinical Fellows may conduct research as part of their fellowship training objectives.

**Research Fellow:** Fellows who are in a research program and have no clinical appointment. Research fellows do not require a College of Physicians and Surgeons of Ontario (CPSO) license. Research fellows must hold a medical degree from an accredited medical school in order for their training to be registered through the PGME office.

All clinical fellows must be registered with the Postgraduate Medical Education (PGME) office. The relationship between the fellow and Western University is educational only and does not constitute an employment relationship with the University. The PGME office is responsible for informing the fellow of all registration requirements that must be completed prior to the training start date, and for providing all supporting documentation for Western University registration,

CPSO, and immigration application requirements.

The Schulich School of Medicine and Dentistry, Western University, through the PGME office, academic departments and fellowship directors will endeavour to provide a reasonable opportunity for the clinical fellow to achieve the written objectives of the fellowship. This will include provision of feedback throughout the fellowship, and supervision in compliance with the [CPSO Policy on Professional Responsibilities in Medical Education](#).

PGME has the right to close the fellowship program if fellowships are not in compliance with the Schulich School of Medicine and Dentistry PGME Fellowship Policy.

## Responsibilities For Clinical Fellowship Education

Refer to Figure 1 for a flowchart of the appointment process and Table 1 for Fellow Responsibilities for Application.

### 1. Fellowship Program Organization

All clinical fellowships must have a designated fellowship director. The fellowship director will oversee the organization, administration, and operation of the fellowship program. The fellowship director must have an official affiliation with the University through their respective Department. The fellowship director may be the same person as the educational supervisor.

The educational supervisor is responsible for overseeing the training, mentoring, supervision, and assessment of the fellow.

### 2. Program Information, Application and Selection Process

The fellowship program must provide a description of the fellowship program and clearly outline the requirements and deadlines for fellowship application on the program website.

The fellowship program must have a formalized, fair and transparent application and selection process. Criteria for fellowship selection (application review, interview requirement and format for example) must be posted on the program website.

Fellowship programs are contacted each January to provide confirmation whether the program is open to receiving applications from Internationally Sponsored Fellows for intake in the following academic year. It is the fellowship program's responsibility to inform PGME whether the program is open to receiving applications.

### 3. Resources

The fellowship director must review the planned number of fellows with the affiliated residency Program Director to ensure that fellowships will not negatively impact residency training. The Department Chair or delegate will make the ultimate decision on the number of fellows.

#### 4. Fellowship Funding

Fellowships without salary funding are not permitted. Clinical fellows cannot be privately funded (for example personal savings or family member funding). All fellowships must include a salary sufficient to cover the estimated basic cost of living in Southwestern Ontario, London or Windsor. The minimum is \$65,000 CAD (Canadian dollars) per annum.

There are four acceptable sources of funding for a clinical fellowship:

I. Sponsored:

The fellow's salary and a tuition payment are provided by their home country. To be sponsored, the fellow must be a citizen of one of the countries with which Western has a contractual agreement in place (Bahrain, Kuwait, Oman, Qatar, Saudi Arabia, United Arab Emirates, Yemen).

II. Department-funded:

The Division or Department is paying the fellow's salary from a university or hospital account. The minimum allowable annual salary is \$65,000 CAD.

III. External funding:

External funding can come from a Canadian industry or from an institution such as a hospital, university, employer, or government agency, in their home country. The salary funding must be a minimum of \$65,000 CAD.

Before an offer is made to an international fellow who indicates they have funding from a source in their home country, they must provide a document from their funding source, signed and on letterhead, confirming that funding will be provided, the duration of funding, and the annual amount in CAD. This requirement does not apply to sponsored applicants as their funding process is different and they cannot provide confirmation of funding before receiving an offer.

IV. Self-funded:

Self-funding is only allowed if the fellow is RCPSC or CFPC-certified and holds an Independent Practice license or Restricted license for Exam Eligible Candidates from the CPSO and is therefore able to bill for services, for example by surgical assisting or other clinical work that their license will permit. They must have the appropriate CMPA Type of Work (TOW) coverage.

There must be a clear plan provided to PGME and communicated to the fellow for the work that will be done. This must be written into the letter of offer. The fellowship must be educationally driven, with clearly established goals and objectives. Clinical fellows must not be the most responsible physician (MRP) for the patient population seen for the purposes of the fellowship.

The remunerative work must be accommodated within the fellow's work schedule, not in addition to the full-time fellowship hours.

The PGME office does not provide salary, administrative, or operational funding for fellowship programs.

Fellows are not included in the Professional Association of Residents of Ontario (PARO) collective agreement. Leaves during fellowship are funded at the discretion of the fellowship

program, or subject to the policy of the sponsoring agency.

Extensions of fellowship training are at the discretion of the fellowship director and the PGME office.

## 5. Timelines

Programs must inform the PGME office of a new clinical fellowship appointment:

- a minimum of 8 months in advance of the anticipated training start date for fellows who are international citizens, and
- a minimum of 4 months in advance for fellows who are Canadian citizens.

Fellowship training extensions must be provided to the PGME office a minimum of 3 months in advance of the fellow's current training end date, and 6 months in advance if the fellow is sponsored.

## 6. Application Requirements

- I. For Canadian and International Applicants not sponsored by their home country, applications are provided directly to the fellowship program. At a minimum, the application must include:

- Letter of Application with Personal Statement of Interest
- Up to date Curriculum Vitae
- Letters of Reference (three)
- Copy of medical degree, with certified English translation if necessary
- Copy of specialty certificate, with certified English translation if necessary
- Proposed area of study
- Proposed duration of Clinical Fellowship training
- Copy of photo page of passport

- II. Internationally Sponsored Fellows are citizens of the countries that Western has an agreement in place with for fellowship training, as follows: Bahrain, Kuwait, Oman, Qatar, Saudi Arabia, United Arab Emirates, and Yemen.

Internationally Sponsored fellows must apply through their sponsoring agency, which will then submit their application to PGME after confirming the applicant's eligibility for scholarship, and PGME will share the application with the program.

Applications made directly to clinical programs must be discarded. If a program is contacted by a sponsored applicant or if a current sponsored trainee refers a colleague, inform the PGME office and provide the candidate's name and country of citizenship or contact information. PGME can then determine that the candidate is eligible for sponsorship and refer the candidate to their sponsoring agency to apply through the correct channel.

## 7. Educational Objectives

Clinical fellows must have educational objectives against which they will be assessed. Clinical fellowship educational objectives are provided to the CPSO by the PGME office as a requirement of the fellow's application for registration with the CPSO.

The fellowship program must provide the clinical fellow with a copy of the educational objectives of the fellowship. The fellowship program must use the [PGME Fellowship Objectives Template](#).

## **8. Change in Training Category or Educational Objectives**

If the objectives of the fellowship are changed or modified, this change must be documented in writing and signed by both the fellowship director and fellow. The revised fellowship objectives must then be provided to PGME; PGME will provide the revised objectives to the CPSO. The CPSO requires this information as part of licensing requirements.

## **9. Assessment of Fellows**

Assessment of fellows must occur on a regular basis. Written assessments are required, at minimum, every 3 months using an ITER type format. These assessments must be discussed with the fellow, and the discussion must be documented in writing.

Additional forms of assessment such as case reviews, 360° evaluations, review of written communication such as notes/dictation, OSCE, or written or oral examinations are encouraged but not required.

Assessments will be provided by the fellowship director to the Associate Dean, PGME, on request. Failure to provide written assessments at minimum every 3 months will result in closure of the fellowship.

If deficiencies are observed by the supervisor, these deficiencies must be communicated to the clinical fellow in a documented meeting with a written assessment, and a copy provided to the fellow. PGME must also be provided with documentation, both of the assessment as well as the documentation of the meetings with the fellow. Where, in the opinion of the fellowship director or educational supervisor, there are deficiencies in the progress towards the objectives, a fellow may be placed on a probationary program in accordance with the Clinical Fellow Probation, Suspension and Termination Policy.

## **10. Concerns about Supervision, Attaining Fellowship Objectives, and Learning Environment**

Where, in the opinion of the fellow, or fellowship supervisors there are serious deficiencies in the efforts of the supervising and collaborating clinical faculty members to provide a reasonable opportunity for the fellow to attain the objectives of the fellowship or serious deficiencies in those faculty members' compliance with the CPSO's Policy on Professional Responsibilities in Postgraduate Medical Education, the fellow will contact the Associate Dean PGME to discuss any concerns. The Associate Dean PGME will review the progress of the fellowship. If the review supports the opinion of the fellow or fellowship supervisor, the Associate Dean PGME will undertake corrective action, in consultation with the relevant parties, including the Academic Department Chair (or delegate).

Clinical fellows may access the Learner Experience Office ([LEO](#)) for support, advocacy, accommodations, and to report learner mistreatment.

## **11. Eligibility Requirements**

### **I. Work Permit**

Fellows who are not citizens or Permanent Residents of Canada must hold a closed, employer-specific work permit issued by Immigration, Refugees and Citizenship Canada (IRCC). Clinical fellowship appointments are contingent upon the fellow's ability to obtain immigration clearance to work in Canada by the appointment start

date in the form of a work permit from IRCC. The fellow's appointment with Western University is conditional upon satisfactory immigration status that is maintained for the duration of the appointment. Should the fellow fail to comply with this requirement at any time during the contract period or should the fellow compromise their legal right to remain in Canada in any way, the appointment with Western University will be terminated immediately and without notice.

Fellows who are international citizens will be provided the necessary documentation and instructions to apply for a work permit by the PGME office; fellowship programs are not responsible for this aspect. Work permit processing time ranges from 4 to 50+ weeks.

International clinical fellows may not travel to Canada until their work permit application has been approved by IRCC, therefore it is important to allow a minimum of eight months processing time between the fellowship start date and the date that the program informs the PGME office of a new international fellowship appointment.

## II. Medical Degree and Specialty Certification

Clinical fellows must have been awarded a medical degree from an accredited Canadian or US medical school as defined in the [Ontario Regulation 865/93: Registration](#) or a doctor of osteopathy degree as defined in the [Doctor of Osteopathic Medicine](#) policy, or an acceptable international medical school as defined in the [Ontario Regulation 865/93: Registration](#) or in the [Alternatives to Degrees in Medicine from Schools Listed in the World Directory of Medical Schools Published by the World Health Organization](#).

Clinical fellows must also have successfully completed a residency training program or the equivalent in Canada or elsewhere, and hold certification as a specialist by the Royal College of Physicians and Surgeons of Canada (RCPSC) or the College of Family Physicians of Canada (CFPC), or as a member of the American Board of Medical Specialties, or be recognized as a medical specialist in the jurisdiction where the applicant practices medicine immediately before the appointment as a clinical fellow.

Postgraduate clinical fellows must be [eligible for a certificate of registration](#) authorizing postgraduate education with the College of Physicians and Surgeons of Ontario (CPSO).

## III. Professional Liability Protection

Clinical fellows will be provided instructions to apply for professional liability protection from the Canadian Medical Protective Association (CMPA) and are required to have active coverage prior to engaging in clinical care. Clinical aspects of clinical fellow learning are subject to the policies, rules and regulatory compliance of the hospital or other clinical settings.

## IV. Immunization record requirements and Canadian Criminal Record Check (level 2 or level 3)

Before a fellow can be cleared to start training, they are required to complete a full health review, instructions for which are provided by Medical Affairs 60 days in advance of the training start date. Fellows are required to provide a Health Screen form and proof of immunizations to Occupational Health & Safety Services. More

information can be found [here](#). The CPSO application requires submission of a Canadian Criminal Record check; more detail is found on the [CPSO website](#).

V. English Language Testing

English language tests are not required by the PGME office. Programs are welcome to make it a program-specific requirement but are responsible for collecting and assessing test results.

VI. University Health Insurance Plan (UHIP)/Ontario Health Insurance Plan (OHIP)

Personal health insurance coverage (OHIP) is mandatory, and the fellow will be instructed to apply for coverage from OHIP. Coverage will be active from the date of arrival. Fellows are required to obtain personal health insurance coverage through OHIP. If the fellowship program does not offer a personal health insurance plan, fellows are welcome to obtain additional health insurance coverage beyond what is available from OHIP through a private provider of their choosing.

Fellows sponsored by Saudi Arabia have personal health insurance, which is facilitated by the Saudi Arabia Cultural Bureau, but are able to apply for OHIP.

VII. Workplace Safety Insurance Board (WSIB)

Hospital policies apply:

- [London Health Sciences Centre \(LHSC\)](#) or contact [Medical Affairs](#) for details
- [St. Joseph's Healthcare Centre \(SJHC\)](#) or contact [Medical Affairs](#) for details
- Windsor
  - [Procedure to be Followed in the Event of Workplace Injury: Windsor Campus](#)
  - [Occupational Health & Safety E-Orientation, Windsor Regional Hospital and Hotel-Dieu Grace Healthcare](#)

VIII. Pre-Entry Assessment Program (PEAP)

All internationally trained clinical fellows who have not completed any postgraduate training in Canada or the USA must complete a Pre-Entry Assessment Program (PEAP) prior to acceptance into a fellowship program.

The PEAP is an assessment process that evaluates certified international medical specialists to determine whether they can function at the level of Ontario trainees who have completed their primary certification and are qualified to enter an Ontario fellowship program. It is a mandatory 4-to-12-week period in duration, is concurrent with the fellowship training program, and serves to provide an assessment of the candidate's general knowledge, skills (both technical and communication), judgment and competence in the designated specialty and at the designated level of training for which the candidate is pursuing a clinical fellowship.

The PEAP must be successfully completed to continue in the fellowship training program. If a candidate is not successful in the PEAP, the fellowship appointment is terminated. See the [Schulich PGME PEAP Policy](#). If the PEAP is completed successfully, the PEAP is counted toward the fellowship training time.

## 12. Offer Letter

The program must prepare and issue an Offer Letter for all new and extended clinical

fellowship training appointments. The Offer Letter is the first step in the process after a program has selected a candidate. The fellow must sign and return the Offer Letter, which is their indication of acceptance of the fellowship offer.

Fellowship programs must use the Western University Offer Letter template, which is available by contacting the [International Trainee Coordinator](#) in the PGME office. Programs are welcome to use their own Offer Letter in addition to the Western University Offer Letter.

### **13. Notification of Training Appointment (NOTA)**

To notify the PGME office of a new or extended fellowship appointment, the program must complete a Notification of Training Appointment (NOTA) form, located [here on the PGME website](#). Page one of the NOTA is filled out by the program with the fellow's relevant training information. The second page of the form is then signed by the fellowship supervisor or director, the Program Director of the accredited residency training program, the Department Chair or Divisional Chair/Chief, and by the Manager of Administration & Finance of the Department if the fellow is being funded by the program.

The program then sends the completed and signed NOTA form, signed offer letter, fellowship objectives, and the fellow's documentation as listed on page one of the NOTA to the [Fellowship Coordinator](#) in the PGME office. The appointment will not be processed until the NOTA has been signed by all parties and all documentation has been submitted by the program. The fellowship appointment is conditional on the final approval of the Associate Dean of PGME.

### **14. Orientation**

The fellowship program must have an orientation process for fellows. This should include components of the training environment, medical records, dictation services as required, and the guidelines and policies applicable to the fellowship.

### **15. Extension of Training**

Fellowship training extensions must be provided to the PGME office a minimum of 6 months in advance of the fellow's current training end date if the fellow is international and holds a work permit, and 3 months in advance if the fellow is not international.

Programs must provide an offer letter to the fellow for a training extension that exceeds the original training end date of the initial offer letter. When a fellow sign and accepts the extension offer, the program must notify the PGME office following the same procedure as the initial appointment; a Notification of Training Appointment (NOTA) form must be prepared and signed by all parties and sent to the PGME office along with the signed offer letter and revised training objectives that include any additional objectives for the extended training.

Clinical fellowship training duration is subject to the CPSO policy "Postgraduate Education Term for Clinical Fellows". The CPSO will renew a certificate of registration for up to 5 years, provided that the fellowship training remains in the same program and enrollment is continuous; the certificate automatically terminates at the end of the fifth year of the clinical fellowship.

### **16. Clinical Fellowship Program Approval**

Departments must provide the PGME office with the objectives of the fellowship and

include support from the Chair and Program Director that ensures that the fellowship will not adversely impact residency training.

The Notification of Training Appointment (NOTA) form is signed by the fellowship supervisor or director, the Program Director of the residency training program, and the Department Chair or Divisional Chair/Chief to confirm their review and approval of the fellowship appointment.

#### **17. Certificate of Completion of Training**

The Certificate of Completion of Fellowship Training is requested by the Fellowship Supervisor or Director and the Associate Dean, PGME on behalf of the Schulich School of Medicine and Dentistry. The Certificate is verification that the fellow has successfully completed the training requirements of the fellowship. Certificates are requested by the fellowship program, and the request is made to the PGME office which then prepares the certificate document.

The Certificate includes the signatures of the fellowship supervisor or director and the Associate Dean, PGME. The fellowship program provides the information to include on the certificate in the request form they provide to the PGME office.

There is no cost for the initial certificate issuance. If the certificate is lost or damaged and a new certificate is required, PGME will issue a replacement certificate for a fee.

**Figure 1.** Flowchart of the appointment process.

**Table 1.** Process description after a training appointment has been offered and accepted

| Action                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   | Timeline                                                                               |

| Trainee must also apply for a Postgraduate Educational Certificate of Registration (license) through CPSO                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                | Approx. 4 months                                                                       |
| Trainee arrives at Canadian port-of-entry and work permit is printed by Customs officials, sends to PGME†.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               | Immediate on arrival in Canada and clearing Customs                                    |
| PGME verifies work permit and sends to CPSO†.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            | Immediate upon receipt                                                                 |
| Trainee cannot begin training until they have met all PGME and Medical Affairs (MA) requirements.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        | Instructions for meeting requirements are issued at least 4 weeks prior to start date  |
| PGME and MA will issue email to both Program Director (PD) and Program Administrator (PA) once they have been verified.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |                                                                                        |
| Trainee begins Pre-Entry Assessment Program (PEAP)‡. <ul style="list-style-type: none"> <li>- The PEAP is an assessment process, 4 - 12 weeks in length that evaluates international medical graduates to determine whether they can function at the level of Ontario medical school graduates and are qualified to enter an Ontario training program. During the PEAP, the trainee is assessed on their clinical skills, knowledge and judgment in the discipline. The overall purpose is to determine that the candidate is mentally competent to practice medicine, has the ability to practice with decency, integrity and honesty and in accordance with the law, has sufficient knowledge, skill and judgment to engage in the kind of medical practice authorized by the certificate, and can communicate effectively and displays an appropriately professional attitude.</li> <li>- The program is responsible for completing a <a href="#">PEAP evaluation form</a> to the PGME office no later than 7 days prior to the fellow's PEAP end date. If the evaluation determines the fellow has demonstrated appropriate ability during the PEAP, the fellow may continue in the program. If the fellow is unsuccessful during the PEAP, the CPSO terminates the certificate of registration and the appointment is terminated. There is an appeal policy available on procedural grounds only, more information is available in the <a href="#">PGME PEAP policy</a>.</li> </ul> |                                                                                        |

\*Applicable to internationally sponsored fellows only

†Applicable to international citizens only

‡Applicable to internationally certified fellows with no previous postgraduate training in Canada or the USA
