**DEADLINE FOR NOMINATIONS: MAY 25TH**

Teaching is one of the many roles of residents; however, it is one that is often unrecognized and unsupported. Residents provide a substantial amount of the clinical teaching for medical students, often making the difference between a good learning experience and a poor one. In order to recognize and reward excellence in teaching by residents, the Class of Meds '49 has donated two (2) awards: one for a Junior Resident and one for a Senior Resident. These awards will be nominated by clinical clerks who will have the opportunity to nominate one Junior and one Senior Resident per rotation. The Junior and Senior resident with the highest aggregate score will be the recipients of these awards.

**Please take a few minutes at the end of each rotation to nominate one Junior and one Senior resident who have made special efforts to teach clinical clerks.**
