

### Rotation length policy

The Royal College of Physicians and Surgeons of Canada and the College of Family Physicians of Canada require that “Documented feedback sessions **must** occur regularly, at least at the end of every rotation. A mid-rotation evaluation is recommended. There should also be regular feedback to residents on an informal basis.”<sup>1</sup>

Rotations may vary in length depending upon the clinical service and rotation nature. For the purposes of providing feed back as well as progression and promotion, educational blocks shall be no longer than 3 months with formal documented feedback occurring at the end of each block. A mid-rotation evaluation and regular informal feedback is recommended. Should an educational block be failed then ERB process will be instituted.

Approved UWO:PGE Committee, March 19, 2008
