- Summative assessment should take into account **all of the formal assessments** that have been done during the rotation, and any relevant anecdotal reports.
- For the **Medical Expert** and **Professional** competencies, the asterisk (*) Indicates a clerk **must** achieve "**Meets Expectations**" in order to pass the rotation.
- For the remaining 5 competencies, a clerk must achieve a minimum of "Meets Expectations" in 4 out of the 5 competencies in order to pass the rotation.
- Failure in **any one subcomponent of a competency** constitutes a **failure** for the entire competency.
 - Consult the Assessment of Clerkship policy for further information.
- If you are unable to assess a specific competency, please indicate "Not Able to Assess" – this should only occur under exceptional circumstances.
- When assessing a subcomponent, **it is possible** to check elements from Does Not Meets Expectations and Meets Expectations to denote specific strengths or weaknesses the **overall result** for each subcomponent is determined by where the **majority of competence** has been demonstrated.

- When scoring the rubric, assessors should take into account the level of training and experience of the candidate (e.g. a clerk on their first rotation *vs.* a clerk on the final rotation).
- Make sure you also complete the **Overall Performance** and **Formative Feedback** sections following the rubric.
