

Pre-Placement Requirement Clearance Information (AFMC International Students)

*In partnership with **Synergy Verified***

Western University has partnered with Synergy Verified to provide support and clearance for pre-placement requirements. You will not be required to upload prerequisite documents into the AFMC portal with your initial application. Once you have applied, and if a visiting elective placement offer is made and accepted, you will then undergo prerequisite verification through Synergy Verified.

To have your documents validated you are required to book an Electronic Student Permit Checking (ESPC) appointment through Verified, a proprietary platform that is used by students across Ontario for the purpose of digitally collecting placement requirements and documentation for verification.

As part of your visiting elective application, you will need to complete and upload a form providing consent for your personal information to be shared with Synergy for the purpose of pre-placement clearance. On this form, you will be required to provide your MINC number so that you can be uploaded into the Synergy Verified system, should you accept a visiting elective offer.

YOUR ESPC APPOINTMENT

After you have accepted a visiting elective offer, your information will be turned over to Synergy. Once Synergy has added you to their system, you will receive login credentials to access your Verified account. You will use Verified to:

- Upload your required documentation for review.
- Book your ESPC review. The service reviews the documents you have uploaded and provides you a status indicating your eligibility for placement.

You will have **three weeks** from the time you accept your visiting elective offer to complete and pass your Synergy Verified clearance. You are encouraged to book your appointment early, even if you do not have all documentation in place. Do not wait until a week or two before the deadline to book your appointment; appointment times will fill.

You are encouraged not to book your appointment for the last available date to allow time for you to book a follow-up appointment before the deadline should you have documentation missing.

Ensure all pre-placement documents are uploaded to your account by 9:00am on the day of your appointment. If documents are missing or a requirement is not complete, you will not be cleared for placement and will need to book a follow-up appointment for an additional fee.

You do not need to be “present” on the day of your appointment – this is the date that staff at Synergy Verified retrieve your documents for review. Your Verified account status will be updated (pass/fail/pending) once your documents have been reviewed and verified by Synergy staff.

Once you have been cleared by Synergy Verified for your elective placement, the elective coordinator will notify the clinical department of your status.
