

STATEMENT 3.2.33 – ACCESSING LONDON HOSPITALS
Undergraduate Medical Education

Approved by:	CLERKSHIP & ELECTIVES COMMITTEE
Date of original approval:	November, 2013
Date of last review:	October, 2014
Date of next scheduled review:	Annually

I. PURPOSE

Students complete their clinical rotations at various hospital sites in London and are responsible for familiarizing themselves with the site names and maps.

II. DEFINITIONS

LHSC London Health Sciences Centre

SJHC St. Joseph's Health Care

III. STATEMENT

1.0 Way-finding System at LHSC and SJHC

1.1 LHSC and SJHC have installed a way-finding system at University, Victoria and St. Joseph's Hospitals that was designed with the first-time visitor in mind. The signs will guide patients and visitors from outside to their desired destination.

2.0 Zones

2.1 In order to help you find your way through buildings, each site has been divided into zones. Each zone will be recognized with these features: a letter, a colour, and a graphic. All the rooms at UH, VH and SJHC will have a 5-digit identifier. The first digit is a letter and identifies the zone the room is in. The second digit refers to the floor level. The final three digits refer to the room series. Room signs will not indicate the hospital – both UH and VH may have the same room number so it is important that you know to which hospital you are going in order to find your desired destination.

IV. AFFILIATED HOSPITALS

1.0 London Health Sciences Centre (LHSC)

http://www.lhsc.on.ca/About_Us/LHSC/Maps_Directions/index.htm
