

Pre-Placement Requirement Clearance Information (AFMC International Students)

In partnership with Synergy Verified

Western University has partnered with Synergy Verified to provide support and clearance for pre-placement requirements. You will not be required to upload prerequisite documents into the AFMC portal with your initial application. Once you have applied, and if a visiting elective placement offer is made and accepted, you will then undergo prerequisite verification through Synergy Verified.

To have your documents validated you are required to book an Electronic Requirements Verification (ERV) review through Verified, a proprietary platform that is used by students across Ontario for the purpose of digitally collecting placement requirements and documentation for verification.

As part of your visiting elective application, you will need to complete and upload a form providing consent for your personal information to be shared with Synergy for the purpose of pre-placement clearance. On this form, you will be required to provide your MINC number so that you can be uploaded into the Synergy Verified system, should you accept a visiting elective offer.

YOUR ERV REVIEW

After you have accepted a visiting elective offer, your information will be turned over to Synergy. Once Synergy has added you to their system, you will receive login credentials to access your Verified account. You will use Verified to:

- Upload your required documentation for review.
- Book your ERV review. The service reviews the documents you have uploaded and provides you a status indicating your eligibility for placement.

You will have three weeks from the time you accept your visiting elective offer to complete and pass your Synergy Verified clearance. You are encouraged to book your review early, even if you do not have all documentation in place. Do not wait until a week or two before the deadline to book your review; review times will fill.

You are encouraged not to book your review for the last available date to allow time for you to book a follow-up review before the deadline should you have documentation missing.

Ensure all pre-placement documents are uploaded to your account by 9:00am on the day of your review. If documents are missing or a requirement is not complete, you will not be cleared for placement and will need to book a follow-up review for an additional fee.

You do not need to be "present" on the day of your review – this is the date that staff at Synergy Verified retrieve your documents for review. Your Verified account status will be updated (pass/fail/pending) once your documents have been reviewed and verified by Synergy staff.

Once you have been cleared by Synergy Verified for your elective placement, the elective coordinator will notify the clinical department of your status.

https://verified.sgappserver.com/s_Login.jsp

SYNERGY VERIFIED - USER FEES (2022 - 2023)

Initial Clearance Review \$ 40.25 +TAX
Missed Review \$ 40.25 +TAX
Follow-up Review \$ 10.00 +TAX

Synergy Verified is here to help with anything related to your account. **Contact Synergy Verified at** www.Synergyhelps.com. Submit a Help Desk ticket and they will be in touch; all support is conducted via email to ensure a detailed documentation trail. Help Desk hours are Monday to Friday, 10am – 3pm (EST), excluding holidays.

PRE-PLACEMENT REQUIREMENTS

list subject to change based on agency requirements

Students with requirements expiring during the placement period must renew (before expiry) and submit updated documentation to Verified to continue to be eligible for placement. This will require another ERV review and there will be a charge for this review.

MEDICAL REQUIREMENTS

AFMC Student Portal Immunization and Testing Form

Every student must submit this form to obtain clearance.

Tetanus/Diphtheria

Documentation of a primary series (3 doses) is required.

Students must provide proof of vaccine received within the last 10 years.

Pertussis

Document proof of vaccination after 18 years old.

Students must provide proof of vaccine within the last 10 years

Polio

Documentation of primary series (3 doses) is required

MMR

Bloodwork showing immunity or proof of 2 vaccinations

Varicella

Bloodwork showing immunity or proof of 2 vaccinations

Influenza

Influenza immunization is not usually available until October and takes

2 weeks to become effective therefore students should obtain the vaccine as soon as it becomes available.

COVID-19

Documented proof of primary series (2 doses) is required.

Hepatitis B Surface Antibody Serology – Mandatory.

You must submit proof of Hepatitis B Surface Antibody blood test results.

Hepatitis B Vaccinations – Proof of primary series of vaccinations is required. If your serology results show you are not immune, then boosters will be required. You can have up to 3 additional boosters. Blood work will be required after each booster. To obtain conditional clearance you will need to show proof that a booster has been administered.

Tuberculosis (Mantoux) – 2 Step TB Skin Test (+ 1-Step Test if required)

Documented proof of a baseline 2-step TB Skin Test (TST) can be accepted if completed after March 2020. If 2-Step TST was completed before March 2020 than please submit it along with a current 1 step TB test. A medical follow-up with chest x-ray is required if a person has EVER had a documented positive TB Skin Test.

NON-MEDICAL REQUIREMENTS

Mask Fit Testing

Required. Mask Fit Models: 3M,1804, 1860, 1860s, 1870+, KC/Halyard 46727, KC/Halyard 46827s. Valid for 2 years

Criminal Record Check - From Home Country

Must provide CRC from Home Country in which you are currently studying. Valid for 1 year

Letter of Good Standing

Must have name, student number, graduation year (2024 or 2025), that you are in good standing, and that the program is in English.

Health Insurance/Provincial Health Card

Required – Must be valid until September 2024.

Proof of Canadian Citizenship or Permanent Residency

Submit a copy of your passport, birth certificate, citizenship card/certificate, or permanent residency card

Student Name:	

AFMC Student Portal Immunization and Testing Form (2023)

Completing this Form: Students can print this form and have it completed by an appropriate health care professional (HCP), i.e., a nurse, physician, physician assistant, or pharmacist; the item(s) documented must be within the HCP's scope of practice. Students must not complete any part of this form with the exception of Section A and (if indicated) Appendices A, B, and D; the remainder of the form is to be completed by the HCP. Close family members and postgraduate residents must not complete the form. Submit the completed form and any attachments according to the instructions on the AFMC Student Portal for the school where the student is applying. If an appendix is not needed it does not need to be submitted with an application.

Guidelines Document: For additional details refer to the document "AFMC Student Portal Immunization and Testing Guidelines" (https://afmcstudentportal.ca/immunization).

Infections with Bloodborne Pathogens: Students who have infection with hepatitis B virus, human immunodeficiency virus (HIV), and/or hepatitis C virus must familiarize themselves with the policies of the medical schools where they wish to apply.

Section A. Student Declaration

- 1. I understand that the personal health information provided in this form shall be kept confidential and will be used by the medical schools to which I apply only for the purposes of a visiting elective. The information provided will be used by the minimal number of individuals required at each medical school, as part of my visiting elective application process to ensure that I meet its health standards or the ones of the relevant health authorities or clinical sites.
- 2. I acknowledge that to the best of my knowledge the personal health information provided in this form is completely accurate.
- 3. I have not completed any part of this form myself, with the exceptions of this section and (if applicable) Appendices A, B, and D. An appropriate health care professional must complete all other sections and appendices.
- 4. I have read and understood the AFMC Disclaimer below:

By giving this form to a health care professional and by uploading this form on the AFMC Student Portal, each student represents that he/she understands: (i) that immunization, testing and mask fitting requirements are requested of students by the medical schools – and not by AFMC – to meet their standards or the ones of health authorities or clinical sites to which a student may be placed for visiting electives; (ii) that AFMC is not responsible for establishing which tests are relevant, and for requesting, testing, or verifying of immunization and testing and mask fitting (or other) requirements; (iii) that AFMC is not involved in the selection of the health care professionals undertaking these tests and filling this form; (iv) that AFMC is not involved in the performance of these tests, their interpretation or the decisions taken based on them with respect to any visiting elective; (v) that even if AFMC has provided for functionalities allowing the upload of the form on the AFMC Student Portal, AFMC is in no way involved in the transmission of such form to the medical schools; and (vi) that any information available on the Portal about this form or the immunization requirements is rendered available for convenience only, was not drafted by AFMC and does not constitute an endorsement by AFMC of such information; accordingly, each student agrees and understands that AFMC shall in no way be liable for: (a) the scope of the information requested in this form and the changes made to the immunization requirements; (b) the performance of the tests, their interpretation, and the consequences they may cause, including the mental distress that may follow when any student is made aware of the results or the time and costs involved in completing such process; (c) the selection of health care professionals performing or interpreting these tests; (d) the transmission of the tests to the medical schools and the decisions taken by them following the receipt of the form; (e) the availability, accuracy and reliability of any information pertaining to the form or immunization requirements; and (f) any physical injury incurred by the student in connection with the tests or this form due to medical malpractice or otherwise. Finally, each student understands that AFMC is not responsible for any unauthorized access to this form which occurred via third parties' servers or while being in the possession of any other person, and that even if AFMC strives to ensure that the Portal is of good quality, merchantability and suitable for the provisions of AFMC's services, and configured to offer proper levels of security, stability, privacy, continuity and minimal services latency, such Portal – just as any other type of technology or system – is not infallible and fully sheltered from unforeseeable or force majeure events.

Student Name:

Laboratory Evidence of Infection: (Note: Having this evidence is uncommon). Submit the laboratory report with this form if a student has laboratory evidence of actual infection (e.g., isolation of virus; detection of deoxyribonucleic acid or ribonucleic acid; seroconversion) to measles, mumps, rubella, or varicella. This evidence will meet the requirements of immunity for the item.

☐ Laboratory evidence of infection attached.

Section H. Hepatitis B

Immunizations: Documentation of a hepatitis B immunization series is required for all students. Positive serology (anti-HBs) will not be accepted if there is an incomplete or absent record of immunization (exception: students immune due to natural immunity, i.e., positive anti-HBs AND positive anti-HBc, or students with hepatitis B infection do not require immunizations documented). Students with an incomplete or undocumented series must have a series completed and documented on this form. Students who are in the process of completing a series must complete the *Hepatitis B Not Immune, Self-Declaration Form* (Appendix D)

	Date (yyyy-mm-dd)	Type of vaccine used *	HCP Initials
Vaccine 1:			
Vaccine 2:			
Vaccine 3 (If required):			
Vaccine 4 (If required):			
Vaccine 5 (If required):			
Vaccine 6 (If required):			

^{*} If information on the name of the vaccine given is no longer available, simply document the date of the immunization.

Serology: Both anti-HBs (hepatitis B surface antibody) and HBsAg (hepatitis B surface antigen) are required.

Anti-HBs (test for immunity: For students who have immunity, only one positive anti-HBs result is required, which must be dated 28 or more days after the immunization series is completed. Repeat testing after this is not recommended. For students who are vaccine non-responders (i.e., student has received two complete, documented hepatitis B immunization series and post-immunization serology 1-6 months after the final dose has not demonstrated immunity), generally no further hepatitis B immunizations or serological testing are required; such student must complete the *Hepatitis B Not Immune, Self-Declaration Form* (Appendix D). For an approach to students with negative anti-HBs refer to the *AFMC Student Portal Immunization and Testing Guidelines*.

<u>HBsAg</u> (test for infection): Required for **all students**, including those who are believed to be immune to hepatitis B. Test must be conducted after the primary hepatitis B immunization series, OR if hepatitis B primary immunization series is still in process, test must be dated on or after medical school admission. Wait until 28 days after a hepatitis B immunization to avoid the possibility of a false-positive HBsAg result. Once the primary immunization series has been completed, repeat testing for HBsAg may be omitted from any additional testing conducted at the discretion of the HCP.

Both tests required for all students:	Date (yyyy-mm-dd)	Laboratory result	Interpretation	HCP Initials
anti-HBs (antibody)			☐ Immune ☐ Non-immune	
HBsAg (antigen)			☐ Infection ☐ No infection	

Students who are **HBsAg positive** (i.e., presence of hepatitis B infection) must familiarize themselves with the policies of the medical schools where they wish to apply.

Section I. Influenza

An up-to-date seasonal influenza immunization is required for electives occurring during November to June inclusive for the following medical schools: Dalhousie University, McGill University, McMaster University, Memorial University, Northern Ontario School of Medicine University, Queen's University, University of Manitoba, University of Ottawa, University of Saskatchewan, University of Toronto, and Western University. The University of British Columbia requires either a documented influenza immunization or a mask be worn for electives November to June inclusive. All other universities highly recommend influenza immunization.

Proof of vaccination must be provided to applicable schools.

If vaccine is not currently available, document the immunization once vaccine becomes available (typically mid-October) and resubmit this updated form to applicable schools. Students applying to **McMaster University** do not need to resubmit this form; provide documentation of the current seasonal influenza immunization directly to the McMaster placement site.

Section J. Human Immunodeficiency Virus and Hepatitis C

Testing and reporting for human immunodeficiency virus (HIV) and hepatitis C virus is required for **Queen's University**, **McMaster University** and **University of Saskatchewan**, but only once an elective has been confirmed. Upload the official laboratory report via the school's AFMC Student Portal. Test results do not need to be shared with other medical schools. See specific details at each school's Student Portal page.

Queen's University: Results must be current within 12 months of the elective application.

McMaster University and University of Saskatchewan: Testing is required for confirmed electives in obstetrics, gynecology, emergency, and surgical specialties only.

Results must be dated after March 1 of the year of entry into medical school and are valid for 4 years

	Appendix D: Hepatitis B Non-Immune Self-Declaration Form
	Note: If an appendix is not needed it does not need to be submitted with an application.
box is	to be completed by the student:
This se	ection applies only to students who either:
•	are still in the process of completing a documented hepatitis B immunization series
	OR
•	have received two complete, documented hepatitis B immunization series, and postimmunization seriology has not demonstrated immunity (i.e., anti-HBs remains less than 10 IU/L) ¹ .
incom	ppendix is not to be used to omit any required hepatitis B immunizations; students with an plete or undocumented series are to complete this appendix, but still must have a series eted and documented on page 5 of this form.
	roach to negative anti-HBs results is described in the AFMC Student Portal Immunization and
	g Guidelines.
For a s immun were re after th	tudent who has failed to respond to two immunization series, it is important to ensure (1) that each ization series was documented, all doses were provided, and that minimal spacing between doses espected; and (2) that post-immunization serology was conducted between 28 days and six mont e final dose of the series to be considered reliable. For such students generally no further pre- ire hepatitis B immunizations or serological testing are required.
