

Visiting Professor Dr. Jennifer Harvey

“Dense Breasts: Should Management Be Different”

Dr. Jennifer Harvey is a Professor of Radiology at the University of Virginia Health System, where she serves as Head of the Division of Breast Imaging, Co-Director of the UVa Breast Care Program, and Vice-Chair of Faculty Development. She attended medical school and did her diagnostic radiology residency at the University of Arizona. Her research interest is the association of mammographic density and breast cancer risk. She serves on or chairs several national committees for the ABR, ACR, and SBI. She serves on the Editorial Board of *RadioGraphics*, and formerly for *JACR* and *Radiology*.

She is the section chief for Breast Imaging at the American Institute for Radiologic Pathology (formerly AFIP).

Learning Objectives:

- | | |
|---|--|
| 1 | Understand the limitations of mammography for women with dense breast tissue. |
| 2 | Describe the association of dense tissue and breast cancer risk. |
| 3 | Understand potential ancillary screening mechanisms for women with dense tissue, including the pros and cons of each method. |

This event is an Accredited Group Learning Activity (Section 1) as defined by the Maintenance of Certification Program of The Royal College of Physicians and Surgeons of Canada and approved by Continuing Professional Development, Schulich School of Medicine & Dentistry, Western University (1 hour). Each participant should claim only those hours of credit that he/she actually spent participating in the educational program.

This program has no commercial support.
