

Department of Medical Imaging Visiting Professor

Dr. Ania Kielar, BSc, MD, FRCP(C)

March 4th, 2019

“Why We Make Errors in Radiology, and Ways to Reduce Them”

Dr. Ania Z. Kielar MD, FRCPC, completed her radiology training at the University of Ottawa in 2005, followed by a 1 year clinical fellowship at the University of Michigan, in Ann Arbor, USA.

Over the past decade, she has been a radiologist at the Ottawa hospital and became an associate professor at the University of Ottawa. She was the division director for 7 years from 2010-2017. She is the chair of the annual Canadian Association of Radiologists research and education competitions. She is also associate editor of Abdominal Radiology Journal.

Dr. Kielar has published over 80 peer-reviewed manuscripts in the medical literature and authored 15 book chapters. Her current areas of clinical interest and expertise include standardization of radiology reports and quality initiatives for decreasing errors in medicine. In her free, time Ania plays ice hockey and competes in various biking and running races.

Learning Objectives:

1. Demonstrate an understanding of types of errors which can occur in an imaging department
2. Recognize situations in the radiology work environment which can predispose to increased risk of errors
3. Apply knowledge from this presentation to implement changes in the department to increase standardization and safety of patient imaging care

This event is an Accredited Group Learning Activity (Section 1) as defined by the Maintenance of Certification Program of The Royal College of Physicians and Surgeons of Canada and approved by Continuing Professional Development, Schulich School of Medicine & Dentistry, Western University (1 hour).

Each participant should claim only those hours of credit that he/she actually spent participating in the educational program. This program has no commercial support.
