Effective March 20, all academic and administration units within Schulich Medicine & Dentistry, with the exception of the core services listed below, will be operating virtually with no staff physically in the office until further notice. The perimeter doors of our buildings will be closed and available by card access.

Core services have been identified as:

- Clinical departments at the hospitals
- The delivery of online courses, examinations and assessments, where required
- Information Services
- Animal care, where applicable
- Computational infrastructure maintenance
- Instrumentation oversight
- Biological specimen preservation (incubators, freezers, liquid nitrogen tanks)
- Facilities
- Key centres required to conduct COVID-19 research (e.g. ImPaKT Facility)
- Supply receipt and maintenance
- Lab equipment maintenance (e.g. autoclaves)
- Waste disposal (e.g. biological and/or chemical hazards)
