

# Microbiology & Immunology 3300B

Course Syllabus for Winter 2025

Western University is committed to a **thriving campus**; therefore, your health and wellness matter to us! The following link provides information about the resources available on and off campus to support students: <a href="https://www.uwo.ca/health/">https://www.uwo.ca/health/</a> Your course coordinator can also **guide you** to resources and/or services should you need them.

## 4. Course Description and Design

**Delivery Mode: IN PERSON** 

This course covers elementary concepts of innate and adaptive immunity, structure and function of the immune system, antigens and antibodies, genetic basis of the immune response, humoral and cellular immunity, immunological tolerance, organ and tissue transplantation, allergy, and autoimmune disease.

Unless you have either the requisites for this course or written special permission from your Dean to enroll in it, you may be removed from this course and it will be deleted from your record. This decision may not be appealed. You will receive no adjustment to your fees in the event that you are dropped from a course for failing to have the necessary prerequisites.

## **Timetabled Sessions**

Component	Date(s)	Time
Lecture		

- ☑ Attendance at sessions is required
- A recording MAY be provided at the discretion of the lecturer. Students are responsible for ensuring access to recordings (with permission) or lecture notes for missed sessions.

All course material will be posted to OWL: <a href="https://westernu.brightspace.com/d2l/login">https://westernu.brightspace.com/d2l/login</a>. Any changes will be indicated on the OWL site and discussed with the class.

If students need assistance, they can seek support on the <u>OWL Brightspace Help</u>. Alternatively, they can contact the <u>Western Technology Services Helpdesk</u>. They can be contacted by phone at 519-661-3800 or ext. 83800.

Current versions of all popular browsers (e.g., Safari, Chrome, Edge, Firefox) are supported with OWL Brightspace; what is most important is that you update your browser frequently to ensure it is current. All JavaScript and cookies should be enabled.

## 5. Learning Outcomes

Upon successful completion of this course, students will develop an advanced working knowledge of the immune system, including its beneficial role in protection from infectious diseases, and its detrimental role in causing certain immune-mediated diseases.

## 6. Course Content and Schedule

Course Introduction, Key Concepts in Immunity	
Pattern Recognition Receptors, Cytokines, and Signaling	
Barrier Immunity and Myeloid Cells	
Bacterial Evasion of Innate Immunity	
The Complement System	
Inflammation	
Clinical Case Studies	
Mutant Animal Models in Immunology	
Lymphoid Organs and Lymphoid Effector Functions	
Test #1 (Lectures 1-8)	
Immunoglobulin Receptors: BCR Gene Rearrangement	
B Cell Development	
The Major Histocompatibility Complex I	
The Major Histocompatibility Complex II	
Monoclonal Antibodies and Flow Cytometry	
T Cell Development	
Primary Immunodeficiencies	
No lecture	
no lectures - Reading Week	
No lecture	
Test #2 (Lectures 9-16)	
T Cell-Mediated Immunity	
Humoral Immunity 1	
Humoral Immunity 2	
Dynamics of the Immune Response and Immunological Memory	
Dynamics of the Immune Response and Immunological Memory Immune Tolerance	
Dynamics of the Immune Response and Immunological Memory Immune Tolerance In Vivo Microscopy of the Immune System	
Dynamics of the Immune Response and Immunological Memory Immune Tolerance In Vivo Microscopy of the Immune System So, you want to be a scientist? (science careers lecture)	
Dynamics of the Immune Response and Immunological Memory Immune Tolerance In Vivo Microscopy of the Immune System So, you want to be a scientist? (science careers lecture) Test #3 (Lectures 17-22)	
Dynamics of the Immune Response and Immunological Memory Immune Tolerance In Vivo Microscopy of the Immune System So, you want to be a scientist? (science careers lecture) Test #3 (Lectures 17-22) Mucosal Immunology 1	
Dynamics of the Immune Response and Immunological Memory Immune Tolerance In Vivo Microscopy of the Immune System So, you want to be a scientist? (science careers lecture) Test #3 (Lectures 17-22) Mucosal Immunology 1 Mucosal Immunology 2	
Dynamics of the Immune Response and Immunological Memory Immune Tolerance In Vivo Microscopy of the Immune System So, you want to be a scientist? (science careers lecture) Test #3 (Lectures 17-22) Mucosal Immunology 1 Mucosal Immunology 2 Vaccine Strategies, Development and Challenges	
Dynamics of the Immune Response and Immunological Memory Immune Tolerance In Vivo Microscopy of the Immune System So, you want to be a scientist? (science careers lecture) Test #3 (Lectures 17-22) Mucosal Immunology 1 Mucosal Immunology 2 Vaccine Strategies, Development and Challenges Vaccine Strategies: Application as Medicine	
Dynamics of the Immune Response and Immunological Memory Immune Tolerance In Vivo Microscopy of the Immune System So, you want to be a scientist? (science careers lecture) Test #3 (Lectures 17-22) Mucosal Immunology 1 Mucosal Immunology 2 Vaccine Strategies, Development and Challenges Vaccine Strategies: Application as Medicine Allergy & Allergic Diseases	
Dynamics of the Immune Response and Immunological Memory Immune Tolerance In Vivo Microscopy of the Immune System So, you want to be a scientist? (science careers lecture) Test #3 (Lectures 17-22) Mucosal Immunology 1 Mucosal Immunology 2 Vaccine Strategies, Development and Challenges Vaccine Strategies: Application as Medicine Allergy & Allergic Diseases Autoimmune Diseases

(science careers lecture) Test #3 (Lectures 17-22) Mucosal Immunology 1 Mucosal Immunology 2 Vaccine Strategies, Development and Challenges Vaccine Strategies: Application as Medicine Allergy & Allergic Diseases Autoimmune Diseases	

## 7. Participation and Engagement

- Students are expected to participate and engage with content as much as possible
- $oxed{ extstyle S}$  Students are expected to attend all lectures in person
- Students can also participate by interacting in the forums with their peers and instructors. The forums will be our primary method to answer student questions.

#### 8. Assessment and Evaluation

Below is the evaluation breakdown for the course. Any deviations will be communicated.

Assessment	Format	Weighting	Date	Flexibility
Test 1	mixed	20%		None
Test 2	mixed	20%		None
Test 3	mixed	20%		None
Final Exam	mixed	40%		Not applicable

**Designated Assessment:** Instructors are permitted to designate one assessment per course per term as requiring supporting documentation to receive academic consideration. See below for information on academic consideration policy and missed course work. For this course no assessment has been designated as requiring supporting documentation.

## Information about flexibility in assessment

Flexibility in assessment has not been applied to this course.

#### General information about assessments

- Midterm Tests and Final Exam will consist of Multiple Choice, Multiple Multiple Choice, and Short Answer Questions from lectures and any assigned readings.
- Midterm Tests will be delivered during regular class hours.
- The Final Exam will be 2.5 hrs in length, and will be cumulative, but with emphasis on the untested material taught after the third midterm. It will require integration of knowledge.
- After an assessment is returned, students should wait 24 hours to digest feedback before contacting their evaluator; to ensure a timely response, reach out within 7 days.
- Any grade appeals on assignments, quizzes, or midterms must be received within 3 weeks of the grade being posted.
- 15% of your course grade will be evaluated and returned 3 days prior to the drop deadline (statement in policies below).

Click <u>here</u> for a detailed and comprehensive set of policies and regulations concerning examinations and grading. The table below outlines the University-wide grade descriptors.

	1	
A+	90-100	One could scarcely expect better from a student at this level
Α	80-89	Superior work which is clearly above average
В	70-79	Good work, meeting all requirements, and eminently satisfactory
С	60-69	Competent work, meeting requirements
D	50-59	Fair work, minimally acceptable
F	below 50	Fail

#### Information about late or missed assessments:

- Missed Midterm Policy: If you miss a mid-term test with approved academic consideration, you will be allowed to write an alternative cumulative final exam that will be reweighted to reflect the missed midterm(s). The alternative final exam will be 3hrs in length and not more.
- Missed Final Exam Policy. There will be <u>one</u> makeup final exam (regular or alternate) scheduled for students who miss the final exam with approved absences. Students who miss the makeup final exam will write it the next time this course is offered
- If the make-up assessment is missed with documentation, the student will receive an SPC and complete the task the next time the course is offered

**INC** (Incomplete Standing): If a student has been approved by the Academic Advising Office (in consultation with the instructor/department) to complete term work at a later date, an INC will be assigned. Students with INC will have their course load in subsequent terms reduced to allow them to complete outstanding course work. Students may request permission from Academic Advising to carry a full course load for the term the incomplete course work is scheduled.

**SPC** (**Special examination**): If a student has been approved by the Academic Advising Office to write a Special Examination and the final exam is the only outstanding course component, an SPC will be assigned. If the class has a makeup exam, the student is expected to write the makeup exam. If the class doesn't have a makeup exam or the student misses the makeup exam for reasons approved by the Academic Advising Office, the student will write the exam the next time the course is offered. Outstanding SPCs will reduce the course load for the term the exam is deferred as outlined in <u>Types of Examinations</u> policy.

#### 9. Communication

- ☑ Students should check the OWL site every 24 48 hours
- This course will use OWL for discussions
- Students should post all course-related queries on the discussion forum so that everyone can access the questions and responses
- ☐ The Discussion Forums will be monitored daily by Teaching Assistants or Instructors

## 10. Office Hours

- ☑ Office hours will be held in person or online, at the discretion of the Instructor
- ☑ Instructors will post instructions for office hours on OWL, as appropriate

#### 11. Resources

- All resources will be posted in OWL Brightspace
- Required textbook is Kuby Immunology, 8<sup>th</sup> Edition

## 12. Professionalism & Privacy

Western students are expected to follow the <u>Student Code of Conduct</u>. Additionally, the following expectations and professional conduct apply to this course:

- All course materials created by the instructor(s) are copyrighted and cannot be sold/shared (e.g., Must Knows Facebook group, Course Hero, Chegg, etc.)
- Recordings are not permitted (audio or video) without explicit permission
- Permitted recordings are not to be distributed

Western is committed to providing a learning and working environment that is free of harassment and discrimination. All **students**, staff, and faculty have a role in this commitment and have a responsibility to ensure and promote a safe and respectful learning and working environment. Relevant policies include Western's Non-Discrimination/Harassment Policy (M.A.P.P. 1.35) and Non-Discrimination/Harassment Policy — Administrative Procedures (M.A.P.P. 1.35). Any **student**, staff, or faculty member who experiences or witnesses' behaviour that may be harassment or discrimination **must report the behaviour** to the Western's Human Rights Office. Harassment and discrimination can be human rightsbased, which is also known as EDI-based, (sexism, racism, transphobia, homophobia, islamophobia, xenophobia, antisemitism, and ableism) or non-human rights-based (personal harassment or workplace harassment).

#### 13. How to Be Successful in this Class

Students enrolled in this class should understand the level of autonomy and self-discipline required to be successful.

- 1. Invest in a planner or application to keep track of your courses. Populate all your deadlines at the start of the term and schedule your time throughout the course.
- 2. Make it a daily habit to log onto OWL Brightspace to ensure you have seen everything posted to help you succeed in this class.
- 3. Follow checklists created on OWL Brightspace or create your own to help you stay on track.
- 4. Take notes as you go through the lesson material. Keeping handwritten notes or even notes on a regular Word document will help you learn more effectively than just reading or watching the videos.
- 5. Connect with others. Try forming an online study group and try meeting on a weekly basis for study and peer support.
- 6. Do not be afraid to ask questions. If you are struggling with a topic, check the online discussion boards or contact your instructor(s) and or teaching assistant(s).
- 7. Reward yourself for successes. It seems easier to motivate ourselves knowing that there is something waiting for us at the end of the task.

#### 14. Western Academic Policies and Statements

#### A. Absence from Course Commitments

Students must familiarize themselves with the Policy on <u>Academic Consideration – Undergraduate Students in First Entry Programs</u>

Students missing course work for medical, compassionate, or extenuating circumstances can request academic consideration by completing a request at the central academic consideration portal. Students are permitted one academic consideration request per course per term <u>without</u> supporting documentation. Note that supporting documentation is <u>always</u> required for academic consideration requests for examinations scheduled by the office of the registrar (e.g., December and April exams) and for practical laboratory and performance tests (typically scheduled during the last week of the term).

Students should also note that the instructor may <u>designate</u> one assessment per course per term that requires supporting documentation. This designated assessment is described elsewhere in this document. Academic consideration requests may be denied when flexibility in assessment has already been included. Examples of flexibility in assessment include when there are assessments not required for calculation of the final grade (e.g. 8 out of 10 quizzes) or there is flexibility in the submission timeframe (e.g. 72 hour no late penalty period).

Please note that any academic considerations granted in this course will be determined by the instructor of this course, in consultation with the academic advisors in your Faculty of Registration, in accordance with information presented in this course syllabus. Supporting documentation for academic considerations for absences due to illness should use the <a href="Student Medical Certificate">Student Medical Certificate</a> or, where that is not possible, equivalent documentation by a health care practitioner.

#### Accommodation for Religious Holidays

Students should review the policy for <u>Accommodation for Religious Holidays</u>. Where a student will be unable to write examinations and term tests due to a conflicting religious holiday, they should inform their instructors as soon as possible but not later than two weeks prior to writing the examination/term test. In the case of conflict with a midterm test, students should inform their instructor as soon as possible but not later than one week prior to the midterm.

#### **Special Examinations**

#### **B.** Academic Offenses

Scholastic offences are taken seriously, and students are directed <u>here</u> to read the appropriate policy, specifically, the definition of what constitutes a Scholastic Offence.

Computer-marked multiple-choice tests and/or exams may be subject to submission for similarity review by software that will check for unusual coincidences in answer patterns that may indicate cheating.

## C. Accessibility Statement

Please contact the course instructor if you require material in an alternate format or if you require any other arrangements to make this course more accessible to you. You may also wish to contact Accessible Education (AE) at 661-2111 x 82147 for any specific question regarding an accommodation or review <a href="https://doi.org/10.1016/j.com/nc/4016/">The policy on Accommodation for Students with Disabilities</a>

#### D. Correspondence Statement

The centrally administered **e-mail account** provided to students will be considered the individual's official university e-mail address. It is the responsibility of the account holder to ensure that e-mail received from the University at his/her official university address is attended to in a timely manner. You can read about the privacy and security of the UWO email accounts <a href="here">here</a>.

## E. Discovery Credit Statement

Students are permitted to designate up to 1.0 Discovery Credit course (or equivalent) for pass/fail grading that can be counted toward the overall course credits required for their degree program. The details of this policy and the deadlines can be found <a href="here">here</a>.

## F. Turnitin and other similarity review software

All assignments will be subject to submission for textual similarity review to the commercial plagiarism detection software under license to the University for the detection of plagiarism. Students will be able to view their results before the final submission. All papers submitted for such checking will be included as source documents in the reference database for the purpose of detecting plagiarism of papers subsequently submitted to the system. Use of the service is subject to the licensing agreement, currently between Western University and Turnitin.com.

#### 15. BMSUE Academic Policies and Statements

## Cell Phone and Electronic Device Policy (for in-person tests and exams)

The Schulich School of Medicine & Dentistry is committed to ensuring that testing and evaluation are undertaken fairly across all our departments and programs. For all tests and exams, it is the policy of the School that any electronic devices, e.g., cell phones, tablets, cameras, smart glasses, smart watch or iPod are strictly prohibited. These devices MUST be left either at home or with the student's bag/jacket at the front of the room and MUST NOT be at the test/exam desk or in the individual's pocket. Any student found with one of these prohibited devices will receive a grade of zero on the test or exam. Non-programmable calculators are only allowed when indicated by the instructor. The program is not responsible for stolen/lost or broken devices.

## Copyright and Audio/Video Recording Statement

Course material produced by faculty is copyrighted and to reproduce this material for any purposes other than your own educational use contravenes Canadian Copyright Laws. You must always ask permission to record another individual and you should never share or distribute recordings.

## **Rounding of Marks Statement**

Across the Basic Medical Sciences Undergraduate Education programs, we strive to maintain high standards that reflect the effort that both students and faculty put into the teaching and learning experience during this course. All students will be treated equally and evaluated based only on their actual achievement. *Final grades* on this course, irrespective of the number of decimal places used in marking individual assignments and tests, will be calculated to one decimal place and rounded to the nearest integer, e.g., 74.45 becomes 74, and 74.50 becomes 75. Marks WILL NOT be bumped to the next grade or GPA, e.g., a 79 will NOT be bumped up to an 80, an 84 WILL NOT be bumped up to an 85, etc. The mark attained is the mark you achieved, and the mark assigned; requests for mark "bumping" will be denied.

#### Statement on the use of Generative Artificial Intelligence (AI) Platforms

Within this course, students are permitted to use AI tools exclusively for information gathering and preliminary research purposes. These tools are intended to enhance the learning experience by providing access to diverse information sources. However, it is essential that students critically evaluate the obtained information, exercise independent thinking, and engage in original research to synthesize and develop their own ideas, arguments, and perspectives. The use of AI tools can serve as a starting point for exploration, with students expected to uphold academic integrity by appropriately attributing all sources and avoiding plagiarism. Assignments and/or lab reports should reflect the students' own thoughts and independent written work. By adhering to these guidelines, students contribute to a responsible and ethical learning environment that promotes critical thinking, independent inquiry and allows them to produce original written contributions.

## 16. Support Services

- Students who are in emotional/mental distress should refer to Mental Health @Western Health https://www.uwo.ca/health/ for a complete list of options about how to obtain help.
- To connect with a case manager or set up an appointment, please contact <u>support@uwo.ca</u>.
- Other important links:
  - o Academic Advising (Science and Basic Medical Sciences)
  - Appeal Procedures
  - Registrarial Services
  - o Student Development Services

## o Student Health Services

#### Statement on Gender-Based and Sexual Violence

Western is committed to reducing incidents of gender-based and sexual violence and providing compassionate support to anyone who has gone through these traumatic events. If you have experienced sexual or gender-based violence (either recently or in the past), you will find information about support services for survivors, including emergency contacts at:

https://www.uwo.ca/health/student support/survivor support/get-help.html.
