Evaluation of healthcare facilities and services provided for tuberculosis and zoonotic tuberculosis in Kajiado County, Kenya

Joel Zhang¹, Timpiyian Leseni,² and Francisco Olea Popelka¹,³

¹ Department of Pathology and Laboratory Medicine, Western University, London, Ontario, Canada, ² Talaku Community Based Organization, Kajiado County, Kenya, ³ Department of Epidemiology and Biostatistics, Western University, London, Ontario, Canada

Tuberculosis

Bovine Tuberculosis

Zoonotic Tuberculosis

10 million incident cases worldwide~1.4 million deaths

Largely neglected disease worldwide

Lack of routine surveillance/improper diagnosis & treatment
Objectives, Methodology, Significance

1. Evaluate current **capacities, logistics, and infrastructure** in place for diagnosis and treatment
2. Evaluate **knowledge, attitudes, and practices**

Questionnaires to:
1. 25 healthcare facilities
2. 75 healthcare workers
