“A New Model of Care in Radiation Therapy: The Role of an Advanced Practice Radiation Therapist”

Grace Lee, MRT(T), CMD, MHSc.
Clinical Specialist Radiation Therapist (Breast site)
Radiation Medicine Program, Princess Margaret Cancer Centre,
University Health Network
Assistant Professor, Department of Radiation Oncology, University of Toronto

Objectives:
- Describe an overview of the CSRT project and Advanced Practice Radiation Therapist role
- Provide examples of the various roles of the breast site CSRT
- Examine the impact of the breast site CSRT role on patient’s treatment pathway and models of care
