"Going Beyond the Glass: Unlocking the Power of Pathology through Digital Image Analysis."
Dr. Matthew Cecchini, MD. PhD. FRCSC.

Pathologist, London Health Sciences Centre. Assistant Professor, Department of Pathology and Laboratory Medicine, Schulich School of Medicine & Dentistry, Western University.

Objectives:
- Identify uses for digital pathology slides in both research and clinical applications
- Select tools and identify available resources for pathology image analyses
- Outline future uses of pathology image data when combined with genomics, radiology, clinical and spatial gene expression data
