"The Lost Consonants: Hearing Loss in the context of curative treatment for Head and Neck Cancers."

Dr. Sara Kuruvilla, MBBS. FRCPC.
Assistant Professor, Schulich School of Medicine and Dentistry, Western University
Medical Oncologist, London Regional Cancer Program

Christina Parker, Au.D. Reg. CASLPO
Clinical Audiologist/Professional Practice Specialist, London Health Sciences Centre

Objectives:
• To describe the association between hearing loss and Cisplatin based chemotherapy in cancer patients
• To discuss factors including biomarkers that may predict for ototoxicity in patients receiving Cisplatin based chemotherapy
• To review the development of a multicenter randomized trial to assess hearing loss in the context of the curative intent treatment of locally advanced head and neck cancers
