As Steering Committee members, they will set the tone for collaboration, cooperation and communication to:

- Ensure we engage and involve our stakeholders in multiple discussions about the department's future;
- Analyze findings from the engagement processes and environmental scan, explore ideas and perspectives and shape our strategic direction and goals;
- Ensure we achieve the overall strategic planning project goals and meet our project milestones.

Under the leadership of Dr. Alison Allan, the Steering Committee will report directly to the Department of Oncology Chair/Chief Glenn Bauman and the Academic Leadership Team. The Committee will hold its kick-off meeting in December and will continue their work through to Summer 2016, with the launch of the Department of Oncology Strategic Plan in September 2016.
