ENT Refresher Webinar Series Objective: To expand the lines of communication between primary care physicians and specialists in Otolaryngology-Head & Neck Surgery, and to share discussion and recent advances as it pertains to complex or challenging cases in Otolaryngology.

By the end of this ENT Refresher Webinar series, participants will be able to:

1. Apply knowledge of recent advances to complex or challenging cases in Otolaryngology
2. Provide an increased quality of care to patients requiring ENT based treatment
3. Understand when a referral to an ENT specialist should occur

Webinars (45 minutes each followed by 25 minute question/answer periods) * 36% of this program is dedicated to participant interaction

Objective: To discuss general principles of acute management of this condition.

At the end of the workshop, participants will be able to:
- Describe current evidence in the approach to otitis media and tonsillitis in the pediatric population.
- Describe the indication for surgical management of otitis media and tonsillitis in the pediatric population.

Objective: To distinguish sudden sensorineural hearing loss from other presentations and review the urgency and acute management of this condition.

At the end of the workshop, participants will be able to:
- Recognize the presentation of sudden sensorineural hearing loss as an ENT emergency and consult accordingly.
- Describe the general principles of acute management of sudden sensorineural hearing loss.

Objective: To discuss general principles of surgical management of otitis media and tonsillitis.

At the end of the workshop, participants will be able to:
- Gain an approach to thyroid nodules.
- Apply TI-RADS scoring system in the management of thyroid nodules.

Objective: To discuss general principles of management of chronic rhinosinusitis.

At the end of the workshop, participants will be able to:
- Generate a comprehensive list of differential diagnoses for patients presenting with symptoms consistent with acute and chronic rhinosinusitis.
- Treat acute and chronic rhinosinusitis based on current evidence.
- Select appropriate patients with symptoms of acute and chronic rhinosinusitis for ENT referral.

Objective: To discuss general principles of management of common head and neck skin cancers.

At the end of the workshop, participants will be able to:
- Recognize typical and atypical presentations of common head and neck skin cancers.
- Investigate and triage common head and neck skin cancers.
- Describe general principles of management of common head and neck skin cancers.

Study Credits: This event is an Accredited Group Learning Activity (Section 1) as defined by the Maintenance of Certification Program of the Royal College of Physicians and Surgeons of Canada, and approved by Continuing Professional Development, Schulich School of Medicine & Dentistry, Western University. You may claim a maximum of 1.25 hours per webinar (credits are automatically calculated). Each participant should claim only those hours of credit that he/she actually spent participating in the educational program.
