amplifon

*Not associated with any manufacturer. The hearing care professional selects from multiple brands to select the best technology for the patient.

Our best-in-class network of experts help your patients rediscover the emotions of sound

Have patients over 50 years old?

Refer them for a **complimentary hearing assessment** if there are any complaints of tinnitus, noise exposure or if they answer **NO** to the following question:

Have you had a hearing test in the past 2 years?

Presenting **Amplifon Center of Research and Studies.**

CRS scrutinizes hundreds of journals, globally in the field of Otology and Audiology and brings to you a plethora of relevant summarized research papers for your reference on the go!

Feel free to ask for your copy of the latest reviewed journal today

Call your Amplifon hearing care professional today to learn how they can provide exceptional hearing care for your patients!
