

2023-2024 MEDICAL & GRADUATE STUDENT OTOLARYNGOLOGY - HEAD & NECK SURGERY RESEARCH DAY

8:00 - 8:05 **WELCOME**

Climate Health

8:05-8:15	Sukham Brar	MD	The impact of climate change on otolaryngologic disease: a scoping review.	Dr Strychowsky
8:15-8:25	Alina Zgardau	MD	Carbon footprint reduction associated with multidisciplinary pediatric airway clinics.	Dr Strychowsky
8:25-8:35	Sukham Brar	MD	"Bring your own" reussables to surgery: an environmental sustainability quality improvement initiative.	Dr Strychowsky
8:35-8:40	Questions			

Rhinology/Sleep

8:40-8:50	Andrew Kokavec	MD	Assessing the safety and tolerability of rhinologic surgery under local anesthetic: An 8-year retrospective analysis	Dr Sowerby
8:50-9:00	Mauz Asghar	MD	Systematic review on the safety of outpatient surgery for obstructive sleep apnea patients in ambulatory surgical care (ASC).	Dr Rotenberg
9:00-9:10	Camille Duggal	MD	Does CSF leak in pituitary surgery affect patient reported quality of life?	Dr Rotenberg
9:10-9:20	Freeman Paczkowski	MD	Impact of saline nasal irrigation, povidone iodine and intranasal corticosteroids on SARS-COV-2 nasopharyngeal viral load and transmission: a systematic review.	Dr Sowerby
9:20-9:30	Questions			

Quality Improvement

9:30-9:40	Freeman Paczkowski	MD	Applying the Sustainability Quality Improvement (SusQI) framework to assess the value of virtual care for Otolaryngology-Head & Neck Surgery Patients.	Dr Strychowsky
9:40-9:50	Jon Nam	MD	Improving operating room efficiency in Otolaryngology - Head & Neck surgery: a scoping review.	Dr Strychowsky
9:50-10:00	Abiram Chandiramohan	MD	Improving ePrescription use in Otolaryngology - Head & Neck surgery: a quality improvement study.	Dr Strychowsky
10:00-10:05	Questions			

10:05-10:25 **BREAK**

Pediatrics

10:25-10:35	Ram Patel	MD	Pediatric adenoidectomy with laryngeal mask airway management in the minor procedure room: a quality improvement project.	Dr Strychowsky
10:35-10:45	Arash Algouneh	MD	Pediatric temporal bone fractures: A single center experience.	Dr You
10:45-10:50	Questions			

Head & Neck

10:50-11:00	Peter Zeng	MD	Resolving the clinical, genetic, and cellular landscapes of subglottic stenoses.	Dr Nichols
11:00-11:10	Amir Karimi	MSc	TIM3 as a modulator of the immune microenvironment in head and neck squamous cell carcinoma: the prognostic potential and the therapeutic implications.	Dr Nichols
11:10-11:20	Harrison Pan	MSc	Investigating the therapeutic potential of Naporafenib in anaplastic thyroid carcinoma.	Dr Nichols
11:20-11:25	Questions			

11:25 **CLOSING REMARKS**

11:30 **GROUP PHOTO**
