

DEPARTMENT OF PAEDIATRICS – POSTGRADUATE EDUCATION DEVELOPMENTAL PAEDIATIRCS – PGY4 IN-TRAINING EVALUATION FORM

RESIDENT: ROTATION & SITE:						
ROTATION BLOCK/DATES:	ACAD	ACAD.YR: PGY-4				
NTRODUCTION						
Number of clinical days for this rotation (19 or 20) Number of days resident was absent for ANY reason (excluding post-call o	lays)					
NOTE: Residents who complete less than 75% of the rotation may be at	risk of being	1	ncomplete			
MEDICAL EXPERT	Not Applicable	1 Does Not Meet Expectations	2 Borderline	3 Meets Expectations		
a. Basic Scientific and Clinical Knowledge Demonstrates a good understanding of basic scientific and clinical knowledge relevant to general paediatric care of children with developmental and behavioural issues (to include, but not restricted to global developmental delay, developmental delays and learning disabilities confined to specific domains, cerebral palsy, ADHD, Autism Spectrum Disorder).						
 b. History and Physical Examination Skills Takes a history with the appropriate level of detail for the situation. Performs a physical examination that is focused, efficient, organized and sensitive to the patient. 						
 Demonstrates developmentally appropriate history and physical examination skills for adolescents. 						
c. Problem Solving Demonstrates ability to develop differential diagnoses, incorporating and integrating prior knowledge and new information, and to develop reasonable investigation and management plans for children with developmental and behavioural problems.						
d. Integration and Application Selects and sequences appropriate investigations. Interprets results, and synthesize information to arrive at a diagnosis.	5					
e. Clinical Judgment Accurately assesses patients and balances the risks and benefits of therapeutic interventions in individual cases. Seeks appropriate consultation from other health professionals. Recognizes personal limitations.						
f. Performance in Emergencies Recognizes acutely ill mental health, addiction, and abuse patients and institutes emergency management appropriately for the level of training and skill. Consults promptly and appropriately. Communicates effectively and remains calm.						
Overall Competence	2:					
Medical Expert: Please comment on Resident's STRENGTHS:		<u>'</u>				
Medical Expert: Suggestions for IMPROVEMENT:						
COMMUNICATOR	Not	1 Door Not Most	2	3 Meets		
	Applicable	Does Not Meet	Borderline	Meets		

a.	Establishment of Therapeutic Relationships.				
	Develops therapeutic relationships with patients and families, characterized by				
	mutual understanding, trust, respect, and empathy. Respects confidentiality and				
	privacy. Demonstrates active listening skills.				
b.	Implementation of Patient-Centred Approach				
	Respects differences in patient's/parents' beliefs, concerns, expectations, and their				
	cultural, gender and value systems, and takes this information into consideration				
	when developing therapeutic plans.				
C.	Ability to Reach Common Ground Demonstrates ability to grash a common understanding with nationts and families				
	Demonstrates ability to reach a common understanding with patients and families and other health care providers regarding problems and plans. Engages in and				
	encourages open discussion. Demonstrates skills in dealing with challenging				
	situations such as angry or upset patients and families.				
А	Clarity of Communication and Explanations				
u.	Demonstrates ability to deliver information incl. bad news and diagnosis disclosure				
	to patients and their family members. Demonstrates ability to communicate with				
	colleagues, and other professionals in a clear and understandable manner.				
e.	Effectiveness of Verbal and Written Communication				
	Prepares clear and accurate written or electronic records of patient encounters incl.				
	recommendations in timely fashion. Effectively and concisely presents medical				
	information / patient encounters in clinic and formal rounds.				
f					+
1.	Effective Counseling Demonstrates ability to counsel and support patients and their families with				
	developmental and behavioural issues.				
	developmental and behavioural issues.
