COMMUNICATOR		Not Applicable	1 Does Not Meet Expectations	2 Borderline	3 Meets Expectation
<ul> <li>a. Establishment of Therapeutic Relationships.</li> <li>Develops rapport and trust with patients and far updated regularly. Respects confidentiality and</li> </ul>		2			
b. Implementation of Patient Centered Approach					

Respects differences in patient's/parent's beliefs, concerns, expectations, cultural context, gender and value systems and takes this information into

consideration when developing therapeutic plans.

1	c.	Patient descriptions				
		Demonstrates ability to deliver complex information to colleagues and other				
		health care professionals in a succinct, efficient manner, while including all				
		pertinent information. This includes morning and afternoon handover,				
		telephone consultation with staff, and bedside rounds				
	d.	Ability to Reach Common Ground				
		Demonstrates ability to reach a common understanding with patients and				
		families and other health care providers regarding problems and plans. Engages				
	e.	in and encourages open discussion.  Effectiveness of Written Communication				
	С.	Maintains clear, accurate, and appropriate written or electronic records of				
		patient encounters and procedures, including transfer and off-service notes.				
		Notes are done in a timely manner and allow seamless transition of patients				
		between care providers.				
	f.	Effective Counseling				
		With the support of the PCCU attending staff, is able to communicate bad news				
		to patients and families. Demonstrates ability to support patients and families				
		with a difficult diagnosis or a chronic or catastrophic illness.				
		Overall Competence:				
		Overall competence.
