

PATHOLOGY AND LABORATORY MEDICINE RESEARCH DAY 2018

Friday, April 13, 2018
Great Hall, Somerville House

Featuring

Dr. Harold Atkins

Scientist, Cancer Therapeutics Program,
Ottawa Hospital Research Institute

“Regenerative Medicine of the immune system:
Harnessing stem cell transplantation for
autoimmune diseases of the nervous system
and beyond”

Dr. Harold Atkins is a physician of the Ottawa Hospital Blood and Marrow Transplant Program, an Associate Professor of Medicine at the University of Ottawa, a scientist in the Centre for Innovative Cancer Research and the medical director of the Regenerative Medicine Program at the Ottawa Hospital Research Institute. Dr. Atkins has spearheaded the use of cell transplantation for immune repair to treat patients with severe autoimmune diseases, particularly Multiple Sclerosis. Dr. Atkins has received numerous awards for his pioneering work, including the 2016 Chrétien Researcher of the Year Award and the 2017 Till & McCulloch Award. We are truly honoured that Dr. Atkins will deliver the 2018 keynote presentation.
