Position Overview:
The Pathologists' Assistant performs gross dissection and description of pathology specimens (both small and large/complex) including recording weights, measurements, gross features, and extent of abnormalities; selecting and submitting samples to be examined microscopically by the pathologist; and assisting in all aspects of peri-natal, neonatal, pediatric, and adult post-mortem examinations, including review of medical records, gross dissection, and selection of samples for microscopic examination, under supervision and control of a pathologist.

Qualifications:
Education:
Bachelor's degree in biological sciences, allied health sciences or related field required.

Licensures & Certifications:
Current certification by the American Association of Pathologists' Assistants, the American Society for Clinical Pathologist (ASCP) or Certification by another national accrediting agency approved by the department required.

Experience:
Experience working as a pathologists' assistant in a complex medical center, with extensive experience handling large and complex surgical pathology specimens and performing post-mortem examinations, as typically attained with two or more years of experience required.

Skills & Knowledge:
Excellent written and verbal communications skills.
Meticulous attention to detail.
Ability to organize and work efficiently in a high volume environment.
Proficiency in using computers, the internet and multiple-interfaced systems
Proficiency in Excel and Word or equivalent applications.
Ability to solve complex, multi-step problems essential.
Ability to troubleshoot and use good judgment at all times.
Excellent interpersonal skills and ability to work in a team-oriented environment essential.
