AGENDA

10:00  Introduction and Welcome
       Dr. Chris Doherty, Dr. Tom Miller and Dr. Doug Ross

10:05  Bionic Upper Limb Reconstruction in the Brachial Plexus Injured Patient
       Dr. Oskar Aszmann, Center for Extremity Reconstruction and Rehabilitation, Vienna, Austria

10:35  Peripheral Nerve Care in a Pandemic: COVID Consensus Guidelines from the Canadian Peripheral Nerve Research Collaborative
       Dr. Kristine Chapman, University of British Columbia

10:50  Panel Discussion: Peripheral Nerve Care in a Pandemic
       Dr. Kristine Chapman, Dr. Oskar Aszmann and Dr. Mike Berger

11:10  Enhancing Peripheral Nerve Recovery: FK506 and Electrical Stimulation
       Dr. Greg Borschel, University of Toronto

11:35  EMG Pearls for the Non-Emgonomographer
       Dr. Tom Miller and Dr. Larry Robinson

12:00  Nerve Reconstruction in the Lower Extremity
       Dr. Amy Moore, Ohio State University

12:30  Virtual Therapy
       Gayle Severance, MS, OT/L, CHT

12:55  Advances in Understanding Peripheral Nerve Tumours and Therapeutic Approaches with MEK Inhibitors
       Dr. Brigitte Widemann, National Cancer Institute, Bethesda

1:25   Imaging and Peripheral Nerve Care
       Dr. Darra Murphy, University of British Columbia

1:50   When to Intervene in Peripheral Nerve Injury: Observations from an Old Cranky Guy
       Dr. Bill Kuzon, University of Michigan
4th Annual Canadian Peripheral Nerve Symposium

AGENDA

2:05  Panel Discussion: When to Intervene in Peripheral Nerve Injury: Basic Principles and New Insights
      Dr. Bill Kuzon, Dr. Kirsty Boyd and Dr. Ming Chan

2:25  Fireside Chat with Dr. Mackinnon: Mentorship and developing the next generation of peripheral nerve clinicians
      Dr. Susan Mackinnon and Dr. Doug Ross

2:55  Concluding Remarks
      Dr. Chris Doherty, Dr. Tom Miller and Dr. Doug Ross
