Pragmatic Trials Training Program: Celebrating Our Collective Impact

A MESSAGE OF THANKS

As we reflect on the progress of the Health Data Research Network Canada Pragmatic Trials Training Program, we want to extend our sincere gratitude to every learner, mentor, faculty member, and partner who has contributed to this growing community. The success of this program is not measured solely by numbers, publications, or presentations. It is reflected in the commitment, collaboration, curiosity, and leadership demonstrated by each participant. Your engagement has strengthened our collective Pan-Canadian capacity to design and conduct pragmatic trials that improve health outcomes and strengthen health systems across Canada. Thank you for being part of this journey.

Trials Training Program**

Program Impact at a Glance

1

Trial received CIHR funding

16

Clinical areas represented among Trial Leaders

1

Indigenous Knowledge Keeper listening and learning series facilitated

16

Conference presentations delivered

2

Indigenous cultural competency training courses (San'yas & OCAP) facilitated

28

Trial protocols developed

2

Conferences hosted

40

Conference panelists engaged

4

Indigenous leaders in health care lecture series delivered

60

Protocol reviews completed

4

Indigenous Knowledge Keeper consultations conducted

75+

Learners trained

5

ACT-HDRN capacity building projects initiated

90+

Curriculum modules developed and reviewed

9

Feature stories developed

175+

Facilitated sessions held

10

Provinces represented

90,000+

Website interactions generated

Partners, Collaborators, Mentors and Facilitators

- Health Data Research Network Canada
- Canadian Institutes of Health Research (CIHR)
- Schulich School of Medicine & Dentistry, Western University
- London Health Sciences Centre Research Institute
- Accelerating Clinical Trials (ACT) Consortium Canada
- Ontario SPOR Support Unit
- PASSERELLE
- Transplant Ambassador Program (TAP)
- Indigenous Peoples' Engagement and Research Council
- Indigenous Knowledge Keepers
- Patient Partners
- Trial Leader Mentors
- Postdoctoral Supervisors
- Session Facilitators
- Training Program Advisory Committee (TPAC) Members
- 50+ organizations across Canada, including Alimentiv, Velocity, AstraZeneca, AGE-WELL, N2, HDR UK, and Population Data BC.

Looking Ahead

As we move forward, we are excited to continue building capacity in pragmatic trials research, strengthening collaborations, and supporting the next generation of researchers and health system leaders.

We look forward to seeing the continued impact of your work in research, practice, policy, and community settings.
