Mitacs supporting collaborative research

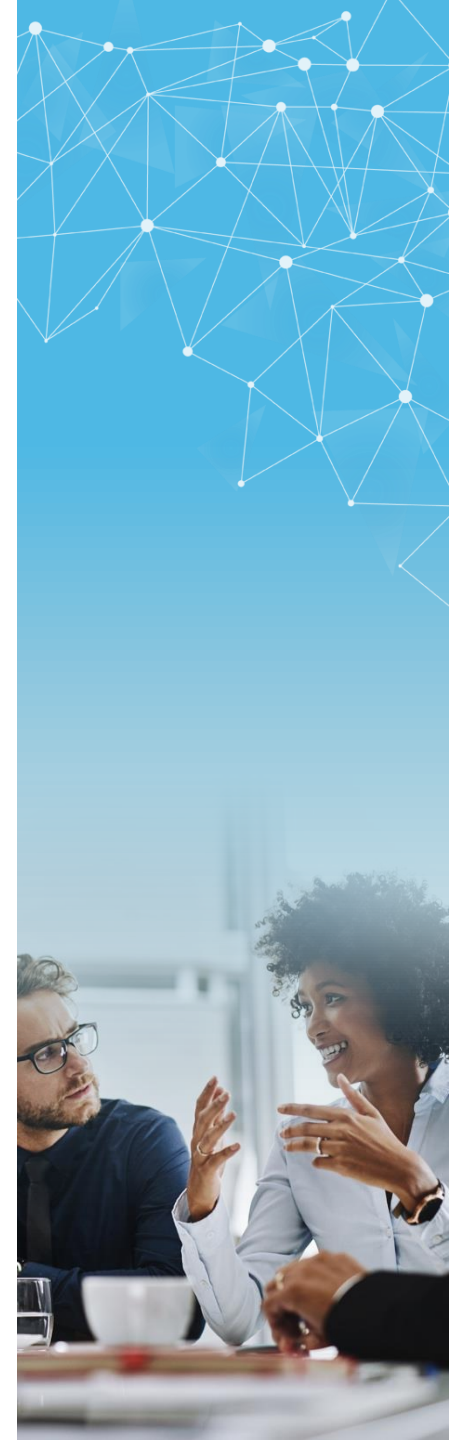

Mitacs is a national, independent, not-for-profit organization that fosters growth and innovation.

Our aim is to develop the next generation of researchers and innovators for Canada's knowledge- and innovation-based economy.

ALL Disciplines

ALL Sectors
Industry, NFPs

Mitacs has the experience

20 years in operation

35,000+

research projects

67

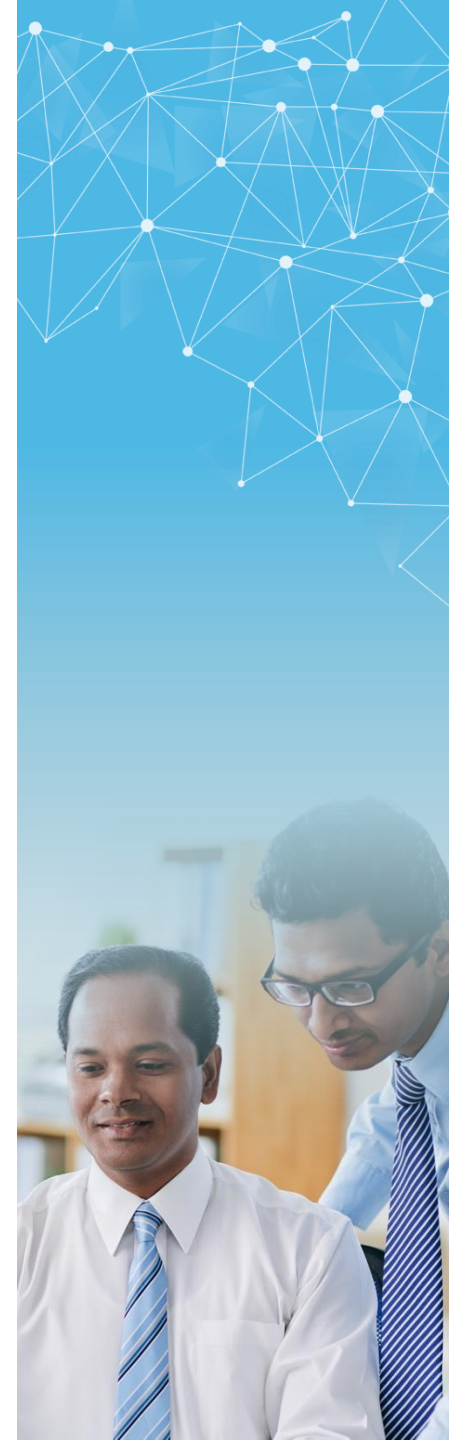

post-secondary partners
in Canada

6,000+

company partners

200+ staff, **30+** offices, **4** regional hubs:
Vancouver | Toronto | Montréal | Ottawa

NEW: Fed budget 2021 announces \$708M over 5 years allocated to Mitacs.

Our programs

ACCELERATE

.....

National and international
research collaborations

ELEVATE

2-year postdoc research
collaborations + training

GLOBALINK

.....

International exchange
of students to and
from Canada

Accelerate

Mitacs

Mitacs Accelerate

Applied research collaborations between researchers & Canadian and international companies, and domestic not-for-profit organizations

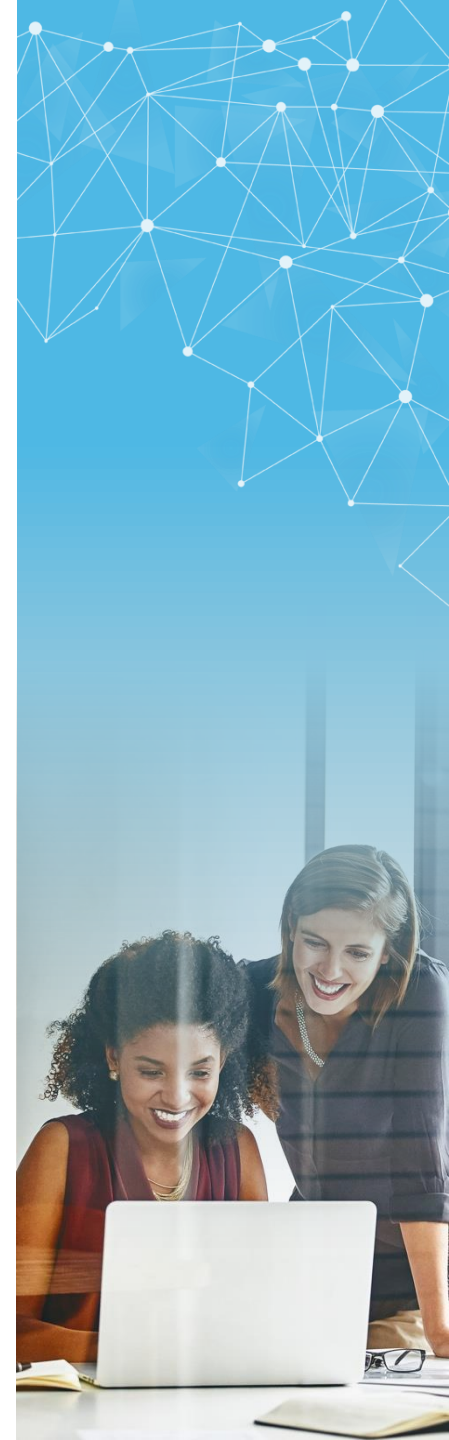

Open to **all disciplines**

Funds students and post-doctoral fellows with some flexibility for research costs

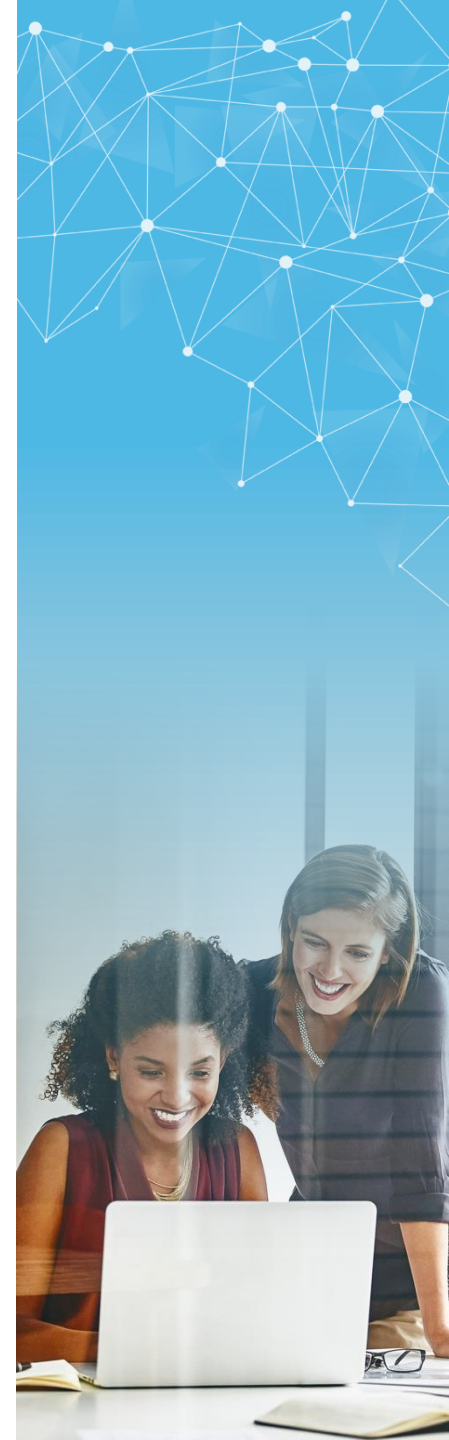

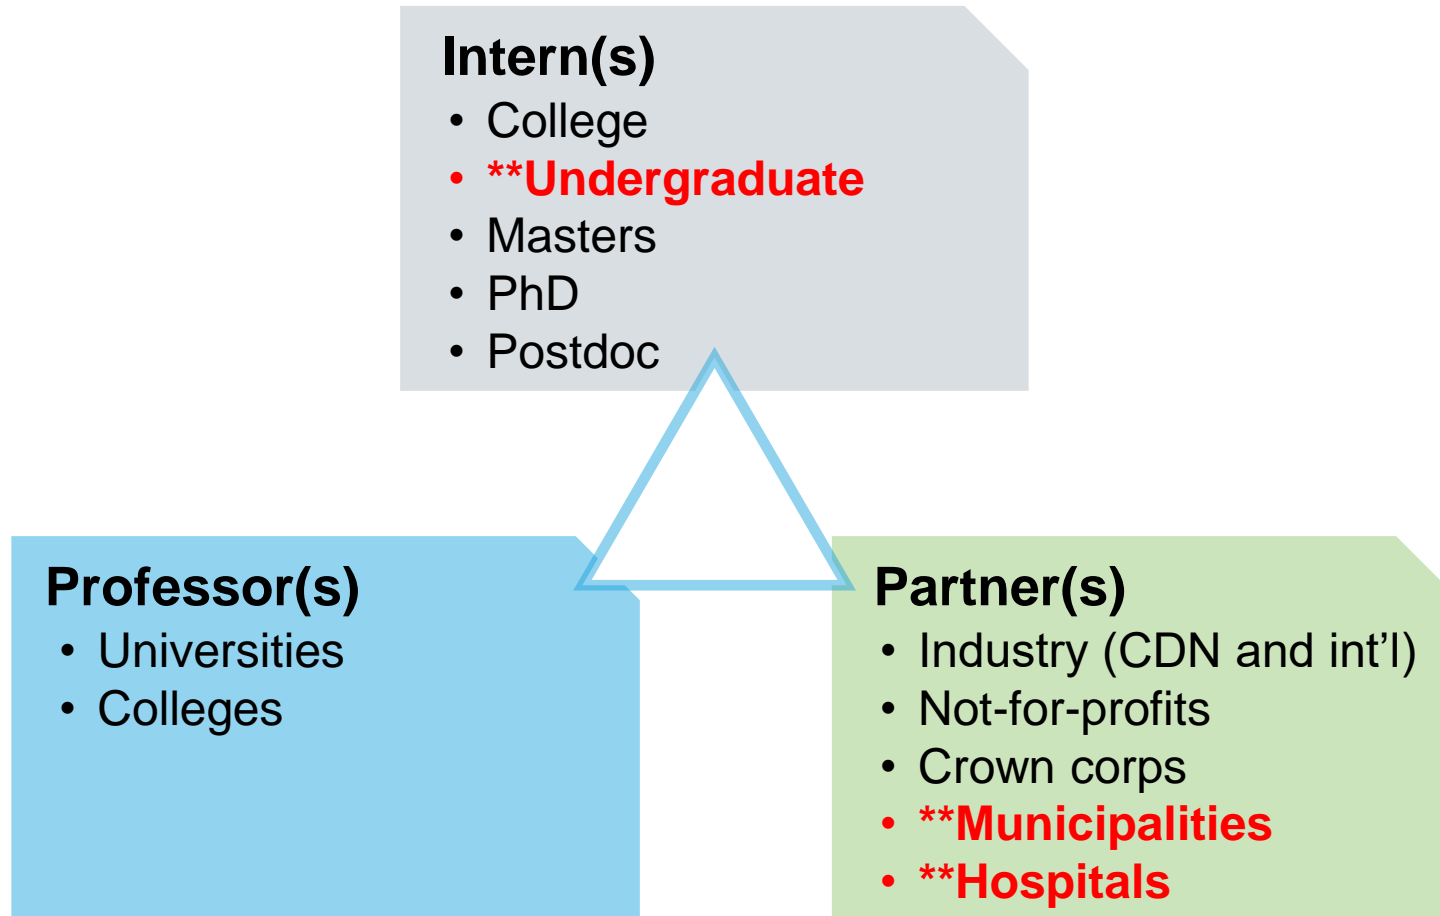

Apply **specialized expertise to solve challenges** relevant to the partner

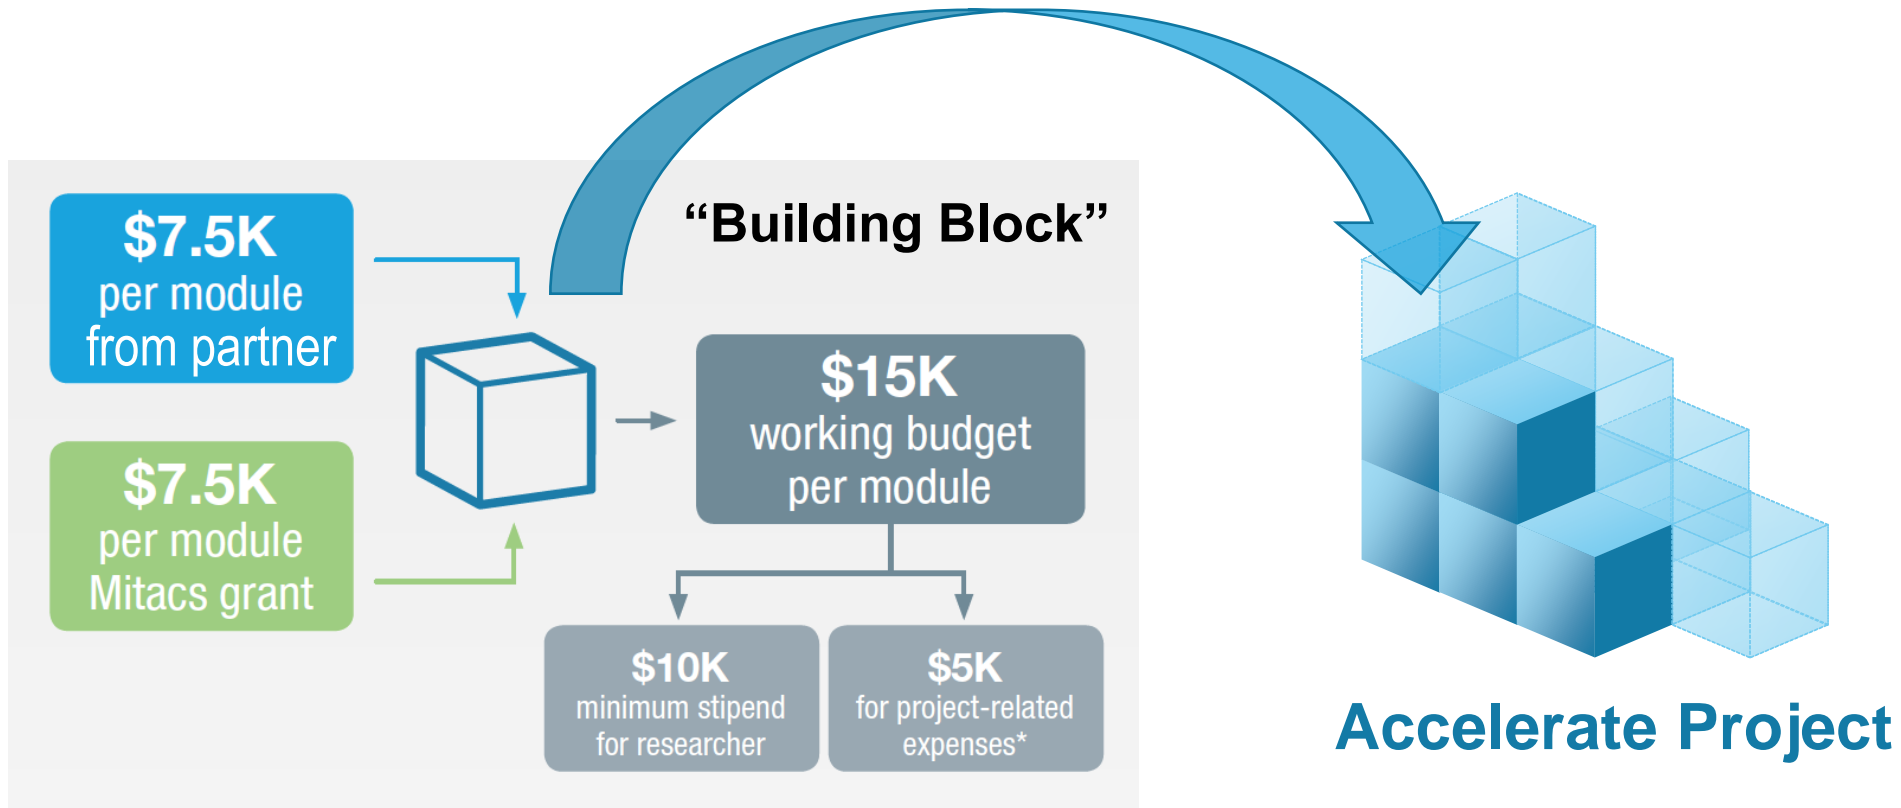

No competition: Applications are accepted any time

Mitacs Accelerate

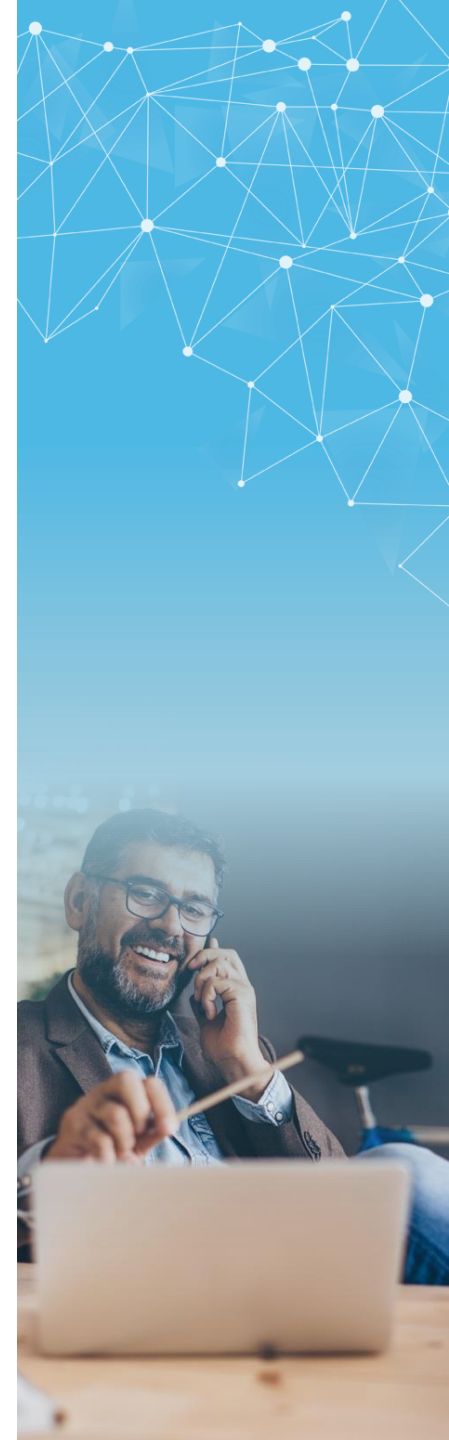

Mitacs Accelerate

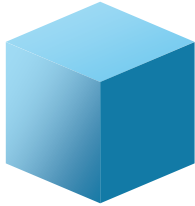

Examples of larger projects at UWO:

- Trojan Technologies
- Baxter Corp
- Solid-State Battery Inc.

Mitacs Accelerate

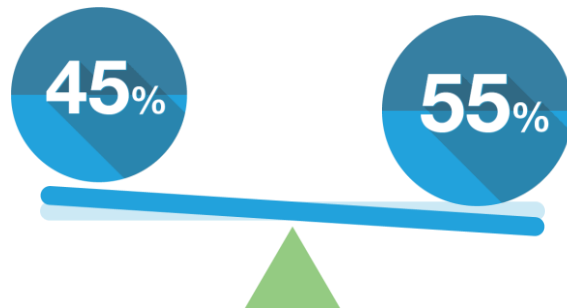

An intern spends a minimum of 4-to-6 months — or **one module** — on a project.

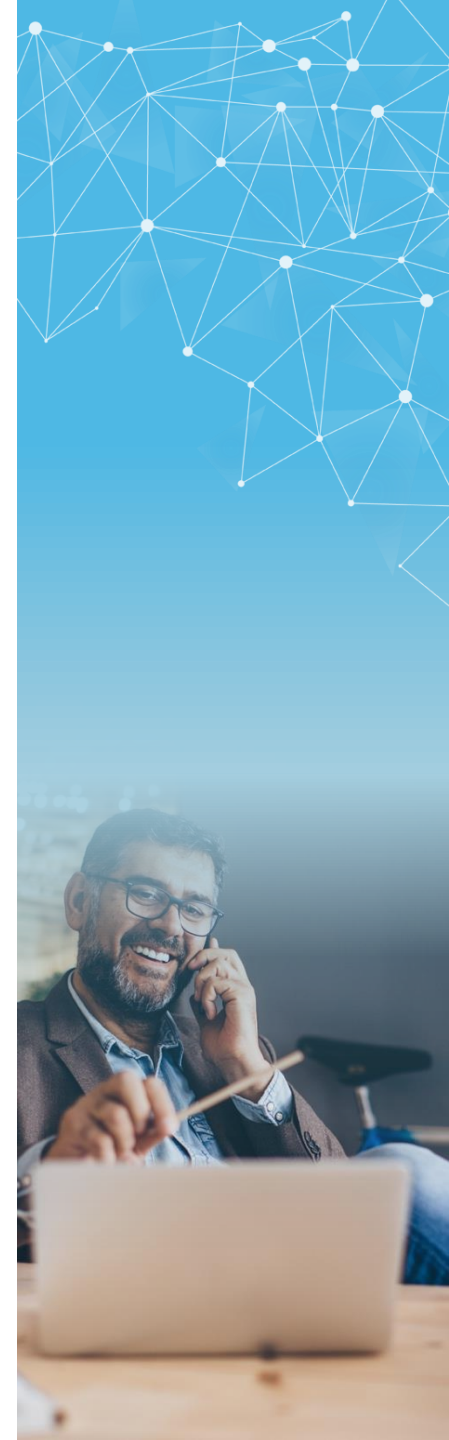

You can have as many modules as you need.

The intern spends a minimum of **25% of their time** at each site

Better leveraging is available for larger projects

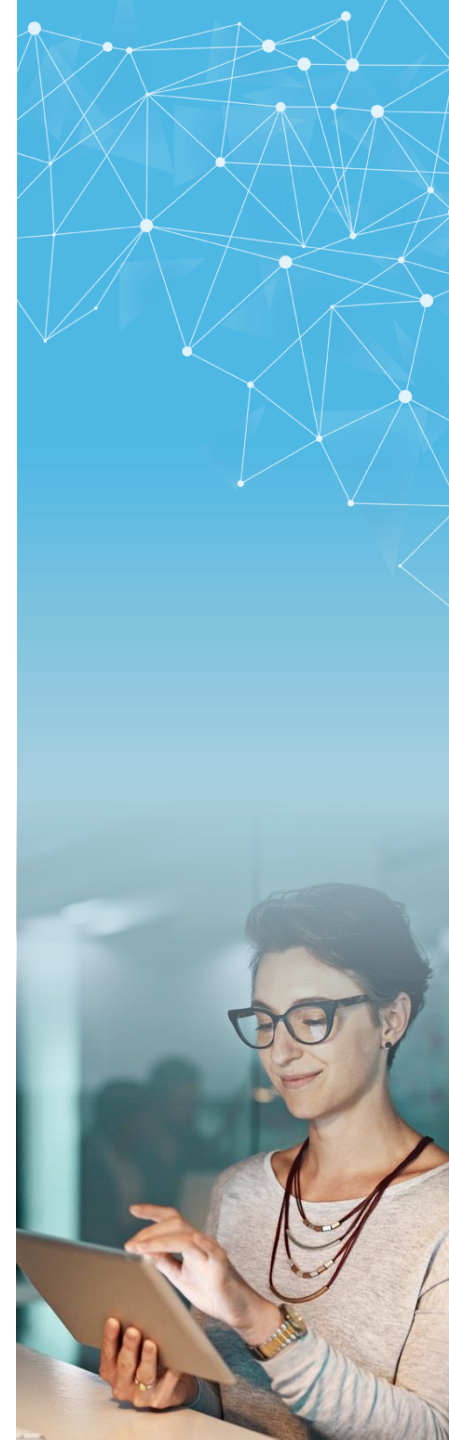

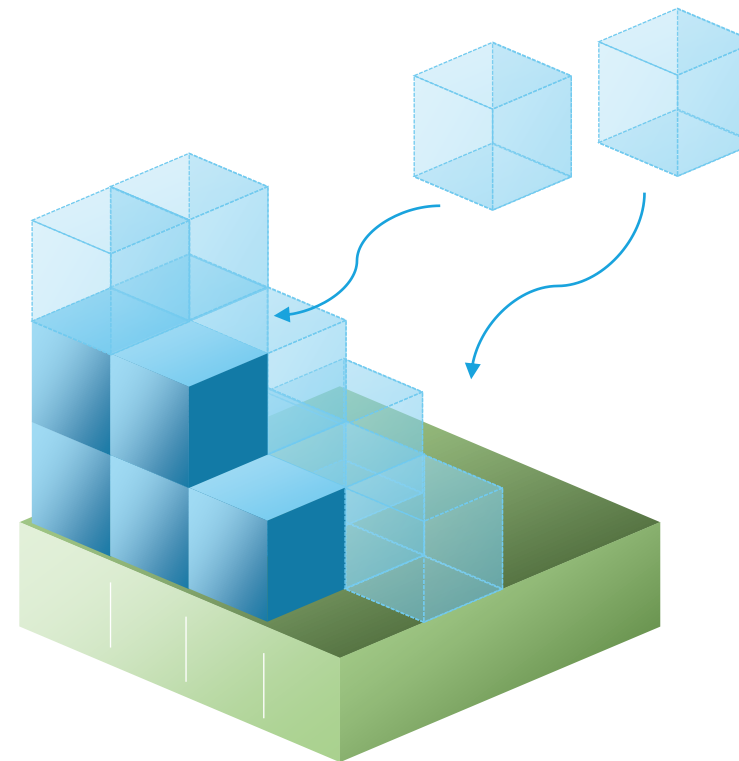

Mitacs Accelerate

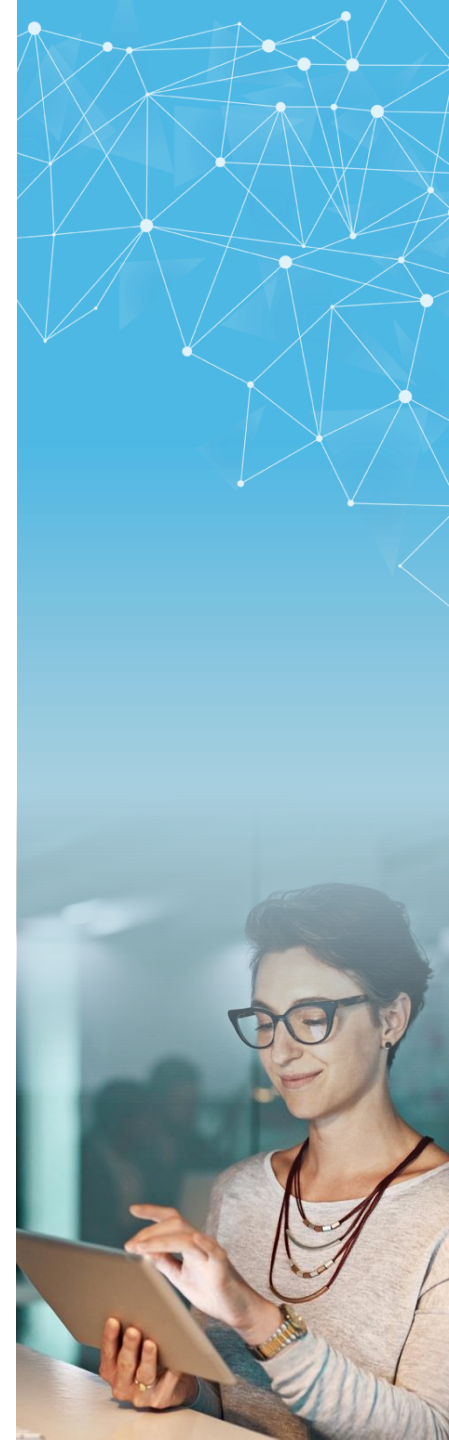

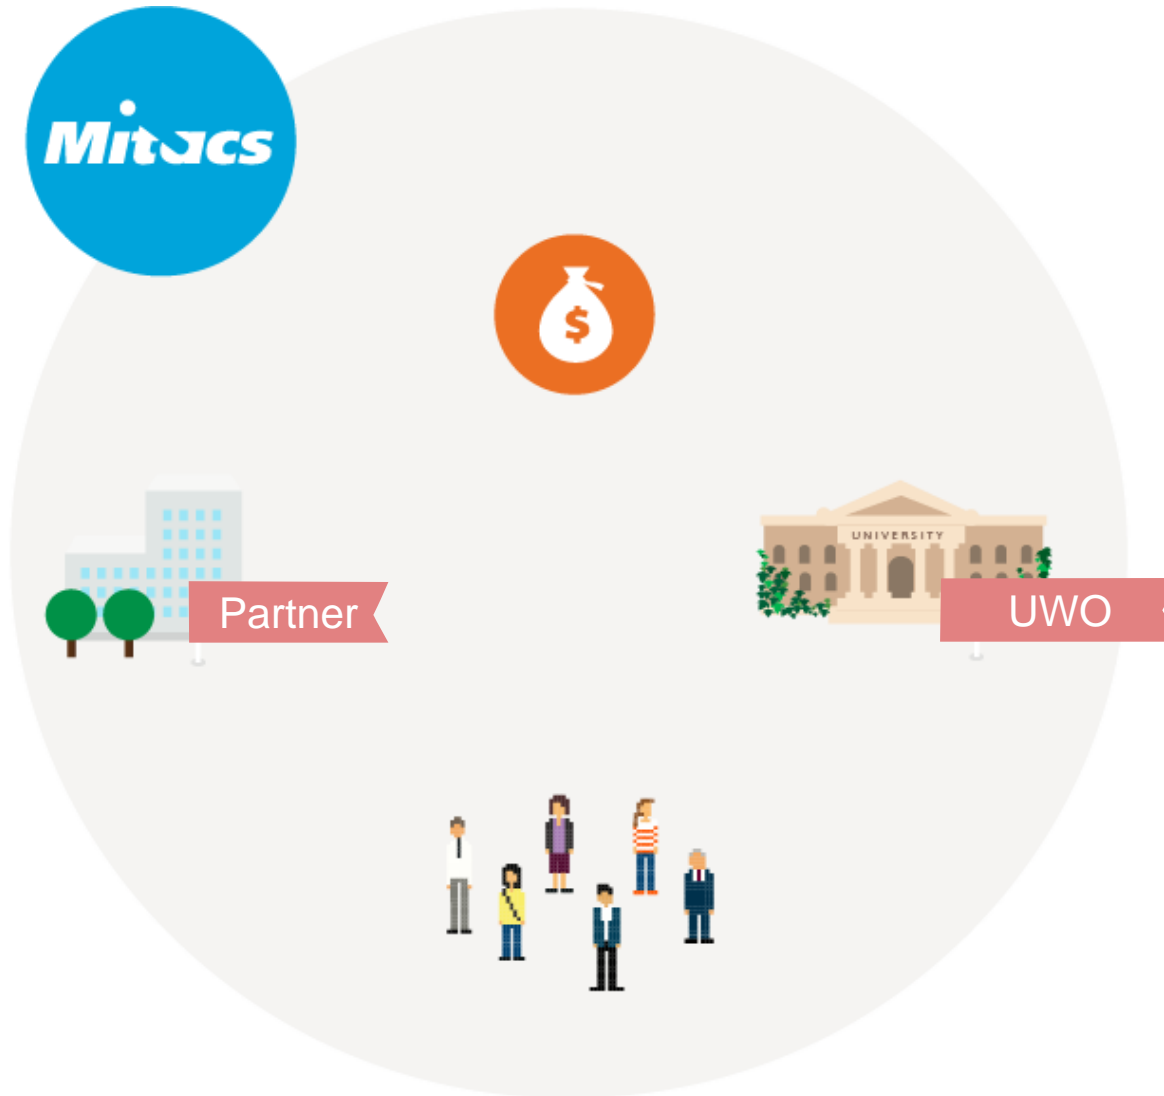

Researchers can do multiple 4- to 6-month modules

Degree Level	Modules (max)
Master	4 (Up to 24 months)
PhD	8 (Up to 48 months)
Postdoc	9 (36 months)

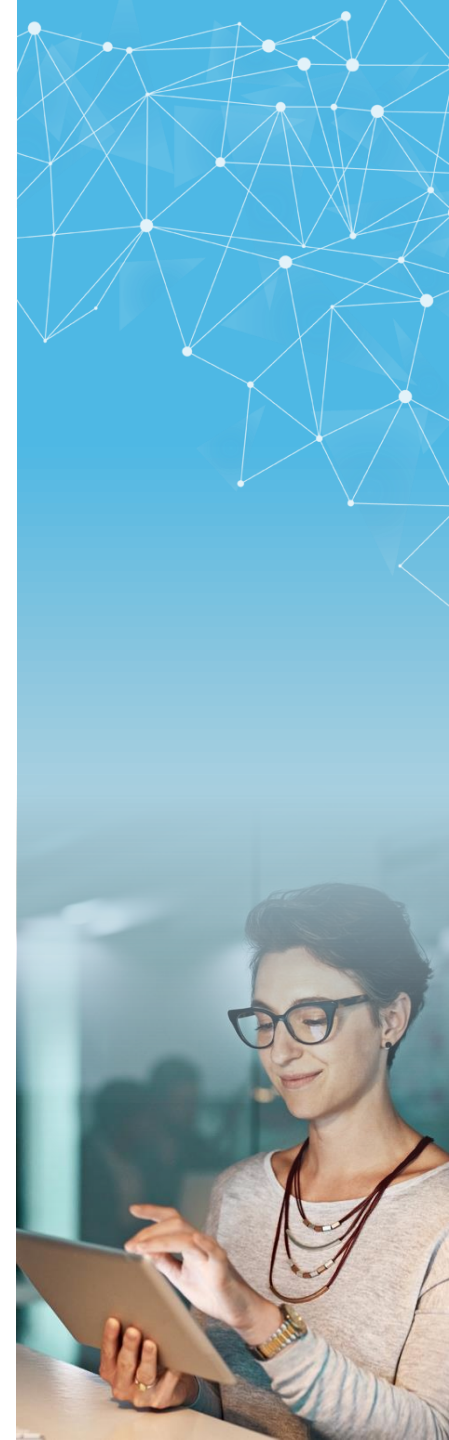

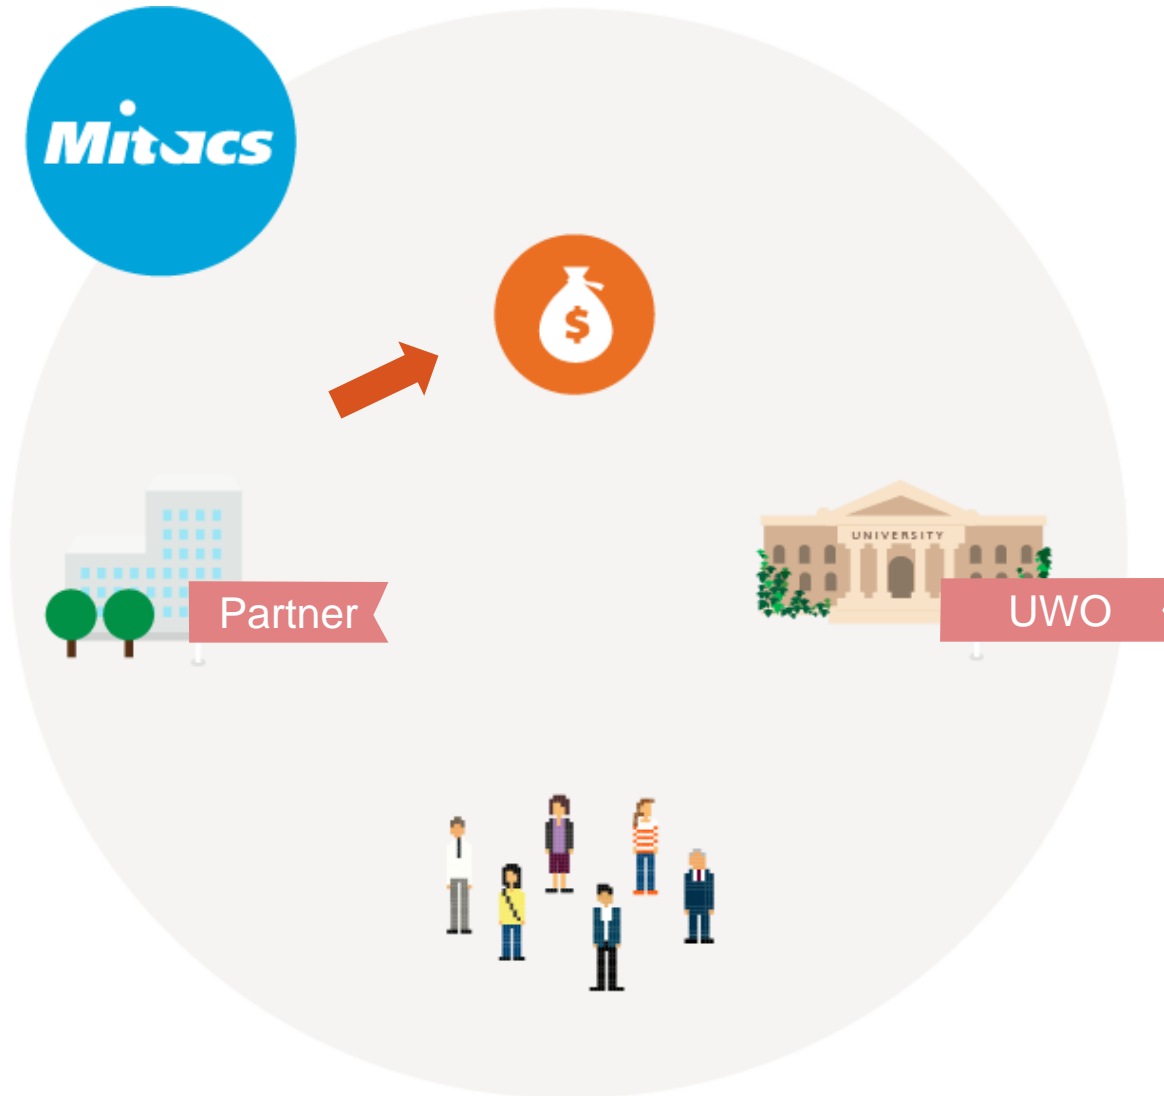

Both domestic and foreign students and postdoctoral fellows are **eligible**

Applying generative machine learning algorithms to generate novel small molecules for drug discovery- BC-590

Desired discipline(s):

Engineering - biomedical, Engineering, Engineering - chemical / biological, Engineering - computer / electrical, Biochemistry / Molecular biology, Life Sciences, Pharmacy / Pharmacology, Computer science, Mathematical Sciences

Name of company: Variational AI inc

Estimated length of project: 4 to 6 months

Preferred start date: As soon as possible.

Location(s): Canada

No. of positions: 1

Scaling up cell-free reagent production and optimization for specific applications- ON-455

Desired discipline(s): Engineering - biomedical, Engineering, Biochemistry / Molecular biology, Life Sciences, Microbiology / Immunology

Name of company: Liberum Biotech

Estimated length of project: 6 months to 1 year

Preferred start date: As soon as possible.

Location(s): Kitchener, ON, Canada; Canada

No. of positions: 1

Evaluating HeadTerm's Effects on Relieving Insomnia- BC-588

Desired discipline(s): Human physical performance and recreation, Life Sciences, Medicine, Nursing

Name of company: WAT Medical Enterprise Inc.

Estimated length of project: 4 to 6 months

Preferred start date: 05/03/2021

Location(s): Canada; Canada

No. of positions: 1

Source and develop clinically tested, cutting-edge supplements in the health food industry- BC-586

Desired discipline(s): Biology, Life Sciences, Food science, Environmental sciences, Natural Sciences

Name of company: Body Energy Club Ltd

Estimated length of project: 6 months to 1 year

Preferred start date: As soon as possible.

Location(s): Vancouver, BC, Canada; Canada

No. of positions: 1-2

Product development of frozen to-go smoothies- BC-584

Desired discipline(s): Biology, Life Sciences, Food science, Agriculture, Natural Sciences, Chemistry, Environmental sciences

Name of company: Body Energy Club Ltd

Estimated length of project: 4 to 6 months

Preferred start date: As soon as possible.

Location(s): Vancouver, BC, Canada; Canada

No. of positions: 1-2

Scanbo v11- BC-582

Desired discipline(s):

Engineering - chemical / biological, Engineering, Engineering - computer / electrical, Biochemistry / Molecular biology, Life Sciences, Biology

Name of company: Scanbo Technologies Inc

Estimated length of project: Flexible

Preferred start date: As soon as possible.

Location(s): Surrey, BC, Canada; Canada
