New awards – Faculty Support for Research in Education

We are pleased to announce the results of the recent competition for Faculty Support for Research in Education (FSRE).

FSRE grants facilitate and enable scholarship in education at Schulich Medicine & Dentistry. These grants support projects with the potential to improve the state of knowledge and inform educational practice or curriculum.

Congratulations to the following recipients:

**Reliability of an objective criteria-based performance assessment tool for operative dental surgical skills**
- PI: Stephen Ferrier
- Co-Investigator: Cecilia Dong

**The value of a good grade: evaluating grade negotiation behaviours and perceptions among undergraduate science students**
- PI: Sarah McLean
- Co-Investigator: Tyler Beveridge

**A Crisis of Character: Exploring Character Development and Well-Being in Post-Graduate Medical Education**
- PI: Nabil Sultan
- Co-Investigators: Jacqueline Torti, Wael Haddara

**Dismantling the culture of silence: using simulation to explore how faculty physicians understand their role when team members “speak up”**
- PI: Taryn Taylor
- Co-Investigator: Rachael Pack
