

## Surgical Foundations: Transition to Discipline EPA #3

### Documenting clinical encounters

#### Key Features:

- This EPA focuses on the synthesis and documentation of relevant medical and surgical information while ensuring professional behaviour in the use of electronic medical records and/or other technologies

#### Assessment plan:

Direct or indirect observation by supervisor with review of clinical documentation

Use Form 1. Form collects information on:

- Type of setting: inpatient; outpatient

Collect 2 observations of achievement

- At least 1 inpatient
- At least 1 outpatient

#### Relevant milestones

- 1 **TD COM 2.3.1** Seek and synthesize relevant information from other sources, including the patient's family, hospital records and other health care professionals, with the patient's consent
- 2 **TD COM 5.1.1 Organize information in appropriate sections within an electronic or written medical record**
- 3 **TD COM 5.1.2** Maintain accurate and up-to-date problem lists and medication lists
- 4 **TD COM 5.1.3 Document an initial management plan for common patient presentations in surgical practice**
- 5 **TD COM 5.2.2 Demonstrate an understanding of the risk of breaching patient confidentiality as a result of the use of new technologies such as telehealth, and internet or digital storage and transmission devices**
- 6 **TD COL 3.2.3** Communicate with the receiving physicians or health care professionals during transitions in care
- 7 **TD L 1.4.1 Utilize the data available in health information systems in their discipline to optimize patient care**
- 8 **TD P 1.1.3 Complete assigned responsibilities**
- 9 **TD P 1.5.1** Describe the risks of technology enabled communication in surgical practice including but not limited to social media
