

Critical Care Western & Anesthesia

City-Wide Grand Rounds

Wednesday, April 24, 2019

0730-0830

University Hospital— BLL-103 Auditorium D

**“Sentinel Event Pedagogical Toolkit:
An Essential Survival Skill for Trainees”**

LECTURE PRESENTED BY

Yoanna Skrobik, MD FRCP(C), M.Sc.

Dr. Skrobik completed her medical training at McGill University and her critical care training at University of Toronto. Her research interests include cognitive dysfunction in critical care as well as pharmacological interventions, prevention and management strategies and frailty. Her current roles include Clinical Professor in the Faculty of Medicine at the University of Montreal as well as Internist Intensivist at McGill University Health Center.

Can't be there in person? Join us for a webinar!
